ROCK PLANTS AND IRIS

CARL STARKER
JENNINGS LODGE
OREGON

INTRODUCTION

We are sending our 1937 catalogue as a personal greeting to our garden friends, old and new. We have added quite a number of new and interesting plants to our collection, many of which are Oregon natives. These are mountain plants, and so are well able to withstand extremes of temperature. All are nursery grown.

Suitable shrubs for the rockery always present a problem. We are continually searching for new material along this line and are pleased to be able to offer the new and rare *Kalmiopsis Leachiana*, one of the finest rock garden shrubs we have ever seen. We have very comprehensive collections of dwarf heathers, brooms, and rhododendrons, as well as numerous other low growing shrubs.

Besides these dwarf shrubs, we have unusually complete collections of flowering onions, campanulas and saxifrages. We also have a fine variety of thymes, teucriums and micromerias and other aromatic plants which will prove a welcome addition to the scented garden.

We are always happy to have visitors call at our gardens where interesting plants may be found in flower most of the year. Our nursery is situated on a paved road one half block east of the new Portland-Oregon City highway at Hull Avenue, which is one block south of the interurban crossing at Jennings Lodge.

If you live too far away to visit us in person, try visiting by letter. We always welcome correspondence, and are glad to answer questions when we are able, and to give what information we possess. It is also true that we have a great many plants not listed in the catalogue. If you are interested in any particular variety write us about it. We may be able to supply your needs.

For a number of years we have been supplying some of our customers with fine Oregon grown English holly sprays and wreaths for the Christmas holidays. We are happy to announce that we are now able to offer this service more widely. We will ship selected sprays of berried holly at 75c per pound, and nicely berried holly wreaths at \$1.00, \$1.50 or \$2.00. We also make beautiful wreaths of assorted evergreens. We have been much complimented on these wreaths which are a specialty with us. They are made of assorted shades and textures of evergreen sprays, beautifully decorated with cones. They have the added charm of being delightfully aromatic, besides providing a new note in Christmas decorations. Price \$2.00. All Christmas greens will be shipped express collect. We realize that the Christmas holidays are still a long way off, but if you are interested in our offer of Christmas decorations, just drop us a card, and we will file your name for reference and send you a descriptive folder a few weeks before the holidays.

Terms of Sale

NON-WARRANTY IS A CONDITION OF ALL SALES MADE. On account of the great number of causes of failure over which we have no control, such as poor or improper soil, unfavorable weather, ignorant or careless culture, we can assume no responsibility after stock is delivered.

ORDER EARLY. Early orders are suggested to prevent disappointment in case the variety should be sold out. Please write your name and address plainly.

TIME OF SHIPMENT. We make a point of mailing out orders as soon as possible after we receive them, so if there is any reason why you do not want your order shipped immediately, please be sure to inform us about it, and give us the date on which you wish to have it shipped.

STOCK. All orders will be filled with good strong stock that will be reasonably sure to bloom the first season. We do not substitute.

TERMS. Cash should accompany all orders. No order will be accepted for less than \$1.00, except for seeds. Make checks payable to Carl Starker.

POSTAGE. We prepay postage on all orders over \$2.00 in Oregon, Washington and California. All others please add 10% to help cover postage and packing.

PRICES of all plants except where noted, 25c

ROCK PLANTS AND ALPINES

ACAENA. Neat little carpenter with mats of rose-like foliage.

Buchananii. Dwarf trailer with gray green foliage.

Glauc. Beautiful silver gray leaves.

Inermis (Microphylla). Purple-bronze foliage.

ACHILLEA. Suitable for poor dry soils.

Argentea. A mass of silvery feathery foliage. Flowers white. 4 in.

Clavennae. Wide tufts of downy leaves with clear white flowers.

Nana. Prostrate. White flowers in mid-summer.

Tomentosa. Finely cut wooly foliage. Golden yellow flowers. 6-10 in.

ACONITUM Anthora. Monkshood. Pale yellow flowers. 18 in. 50c.

ADENOPHORA Potaninii. Handsome spikes of large light blue campanuloid flowers. 8 in. 50c.

AETHIONEMA. Charming bushlets with beautiful glaucous blue foliage. Desirable for a hot sunny location.

Grandiflorum. Rosy blossoms in racemes. 50c.

Persicum roseum. Light pink. 6-8 in. 50c.

Warley Hybrid. Choice blooms of deep rose. Finest of all. 50c.

AJUGA. Attractive ground cover. Shade.

Brockbankii. Metallic foliage.

Metallica Crispa. Very compact with deep green crinkly leaves, with metallic shadings. Rare. 40c.

Reptans. Mats of glossy ornamental foliage. Blue flowers.

Variegata Foliosa. Yellow and purple variegated foliage.

ALCHEMILLA Alpina. Mats of palmate leaves attractively fringed.

ALLIUM. Little known bulbous plants with beautiful showy flowers in umbels. Permanent and easy.

Albopilosum. Large and imposing silvery blue flowers. Fine cut flower. 35c.

Albo-purpureum. Claret red flowers. 3 ft.

Beesianum. Loose heads of china blue. 9 in.

Cernuum. Nodding clear pink blossoms. 8 in.

Cyaneum. Lovely light blue flowers in June. 6 in.

Darwasicum. Soft lavender pink. 6 in.

Falcifolium. Rose flowers. 2-3 in.

Flavum. Fine yellow flowers.

Flavum Minor. Similar to Flavum, but more dwarf.

Globosum. Round heads of mulberry and silver. 3 ft. 35c.

Karataviense. Lilac blue. Wide glaucous leaves. July. 1 ft. 35c.

Moly. Showy heads of brilliant yellow flowers with broad glaucous foliage. Handsome.

Narcissiflorum. Loose pendant heads of wine-red balls. Very fine. 8-10 in. 35c.

- Neapolitanum. White flowers with green stamens. 1 ft.
 Oreophilum. Deep lilac. 15 in.
 Pulchellum. Heads of rose colored flowers. Late. 6-8 in.
 Recurvatum Superbum. Taller and more robust than the above.
 Rosenbachianum. Large rosy purple heads. 3 ft. 35c.
 Roseum Grandiflorum. Lovely deep pink. 12-18 in.
 Ruby Gem. Fine amethyst rose. Long season bloomer.
 Schoenoprasum. Pretty rosy purple flowers.
 Tibeticum. Balls of mauve pink flowers. Dwarf. Early bloomer.
 Triquetrum. Very attractive. Large waxy white blooms. 8-10 in.

ALYSSUM. Showy plants for sunny, well drained places.

- Alpestre. Gray foliage. Yellow flowers. Prostrate. Desirable.
 Condensatum. Hoary foliage and light yellow flowers. 6 in.
 Idaeum. A real treasure with prostrate shimmering silver green foliage and soft yellow flowers. 50c.
 Montanum. Gray green trailer with yellow flowers.
 Repens. Pretty creeping species. Yellow flowers. 35c.
 Saxatile Compactum. The popular Basket of Gold.
 Saxatile Citrinum. A sulphur yellow form of the above.
 Spinosum. Silvery foliage with white flowers. Very good. 4-6 in.

ANDROMEDA Polifolia Nana. Attractive evergreen shrub with small narrow foliage and pink tinted white flowers. Part shade. 8 in. Small plants. 50c.

ANDROSACE. Primula-like flowers. Foliage in rosettes. Requires a gritty soil and prefers a north aspect. Very lovely and choice.

- Carnea Lageri. Compact juniper-like foliage and heads of pretty pink flowers. 50c.
 Chumbyi. Smaller than Primuloides. Velvety rosettes and heads of rosy pink flowers.
 Lanuginosa. One of the most beautiful and floriferous with silver foliage and soft rosy lilac blossoms. Blooms all summer.
 Primuloides. Rosettes of silvery foliage with lilac pink flowers.
 Sarmentosa. Var. Watkinsii. Tight silky rosettes with pink flowers. 50c.
 Sempervivoides. Beautiful smooth rosettes of bright green leaves with rosy flowers on 4 in. stems. 50c.

ANEMONE. Windflower. Lovely plants of easy culture.

- Apennina. Exquisite rich blue blossoms in earliest spring. 3 in. 35c.
 Blanda. Dwarfier than the preceding with larger flowers of fine soft blue with golden centers. Shade. 35c.
 Halleri. Pulsatilla type. Rich violet flowers. 6 in.
 Hupehensis. Dwarf Japonica type. Pale mauve flowers from August to late fall. 14 in. 35c.
 Nemorosa Alba flore plena. Lovely abundant double white flowers. Choice and rare. 50c.

- Nemorosa Robinsoniana.** Pale powder blue with buff reverse. Shade. 35c.
Oregana. Choice Western native. Somewhat similar to *Nemorosa* with white, pink or lavender flowers. Shade.
Pink Perfection. St. Brigid type. Handsome clear pink. 12 in.
Pulsatilla. Silky buds open to form deep lavender flowers with golden centers. Attractive fluffy seed heads.
Pulsatilla Alba. A fine white form of the above. 50c.
Pulsatilla Rubra. Curious reddish brown flowers.
Silvestris. Large creamy white flowers. Dark foliage.
Vernalis. Large white flowers with bluish reverse on very short stems. Choice and rare. 75c.

APHYLLANTHES Monspeliensis. Fascinating little rush with delicate blue lily-like flowers. 9 in. 50c.

ANTHEMIS. Ferny foliage and daisy-like flowers.

- Montana.** Charming sort with silvery foliage and white flowers. 1 ft.
Rudolphianum. Beautiful foliage like silver filagree. 50c.

AQUILEGIA. Columbine. Handsome foliage all through the year. Showy flowers in May and June.

- Akitensis.** Beautiful Japanese species with deep blue flowers. New and rare. 3 in. 75c.
Alpina. Marvellous powder blue flowers. 12 in.
Buergeriana. Yellowish brown flowers. 9 in. 75c.
Canadensis Nana. Dainty red and yellow flowers very freely produced. Dwarf. 8-12 in.
Chrysantha. Fine yellow long-spurred columbine from the Rocky Mountains. 2 ft.
Coerulea. Colorado native. Lovely blue and white flowers.
Compacta Edelweiss. Trim little plant with silvery leaves and white flowers. 6-8 in.
Flabellata Nana Alba. Waxy white flowers. Dwarf.
Helena. Large blue and white flowers. 12 in. 35c.
Hensol Harebell. Vivid deep violet blue. 18 in. 35c.
Jucunda. Gorgeous blue and white flowers of great size and fine substance. Rare. 50c.
Mrs. Scott Elliot Hybrids. Wonderful colors. Long spurs.
Pyrenaica. Deep violet blue flowers. Dwarf, Choice.
Reuteri. Deep blue. Short spurs. 12 in.

ARABIS. Rock Cress.

- Alpina Flore-plena.** Dense masses of double white flowers.
Alpina Rosea. Soft rose colored flowers. Dwarf.
Alpina Variegata. Variegated yellow and green foliage. Very showy.
Androsacea. Silvery clumps of neat silky rosettes. Choice. 50c.
Kellereri. Silvery foliage with white flowers. Choice.

Procurrens. Dense deep green foliage. White flowers.

Sturii. Cushions of dark foliage and large white flowers. 3 in.

ARCTOSTAPHYLOS Uva-Ursi. (Bear Berry) Western native. Prostrate evergreen with shiny round leaves and pink tinted vase-shaped flowers followed by showy red berries. 35-50c.

ARENARIA. Fine carpeting plants.

Grandiflora. A small tufted alpine with white flowers.

Montana. Trailing green foliage and large white flowers.

Tmolea. Stiff cushions of tiny leaves with white flowers. 35c.

ARISAMEA Triphyllus. Jack-in-the-pulpit. Curious black and green calla-like flowers. Middle western native. Shade.

ARMERIA. Sea Pink. Thrift.

Caespitosa. Tight cushions of foliage 2 in. high. Produces a profusion of stemless pink flowers. A rare gem. 50c.

Caespitosa Hybrids. Free flowering hybrids slightly larger than the type. White to deep pink.

Maritima. Neat tufts of grass-like foliage. Round heads of light pink flowers.

Maritima Alba. White form of the above.

Maritima Lauchiana. Improved form with rose colored blossoms.

Setacea. Light rose pink flowers. 3 in. 35c.

ARTEMISIA. Glacialis. Mats of finely cut silvery foliage. 3-4 in. 35c.

ASARUM. Wild ginger. Evergreen ground cover for shade.

Caudatum. Dark leaves and mottled brown flowers.

Hartwegii. Leaves mottled white.

Lemonii. Similar to the above, but more spreading.

ASCLEPIAS Tuberosa. Showy heads of brilliant flowers. 18 in.

ASPERULA. Wiry tufted plants with clouds of airy flowers.

Cynanchia. Dainty trailer with tiny soft pink flowers in great abundance.

Longiflora. Long trumpeted white flowers tinted pink. 35c.

Lutea. Dark green foliage and tiny yellow flowers. 3 in.

ASTER. A large genus of attractive daisy-like flowers.

Acris. A bush type with small bright violet blue flowers in great profusion. 3 ft.

Alpinus. Clear lavender flowers with golden centers. Dwarf.

Alpinus Albus. White form of the above.

Alpinus Dark Beauty. A fine purple form of Alpinus.

Alpinus Dolomiticus. Lovely dark lavender.

Alpinus Goliath. Lilac blooms larger than the type.

Amelius King George. Very fine. Profuse blooming bushy plants with large blue flowers. July to September. 2 ft. 35c.

Dwarf Hybrids. Wonderful new race of asters like dwarf Michaelmas daisies. Less than one foot tall. Profuse bloomers. Choice and lovely. Good for edgings. August to October.

Constance. A really pure shell pink, of very graceful habit. 9 in.

Countess of Dudley. Clear pink. 12 in.

Daphne. Lovely soft pink. 9-12 in.

Diana. Large delicate soft pink semi-double flowers. Sept. 9 in.

Hebe. Compact. Small deep pink flowers. Sept. 10 in.

Lady Henry Maddocks. Clear pale pink. 9 in.

Marjorie. Large flowers of bright rose pink. Compact. 9 in.

Nancy. Lavender pink. 9 in.

Ronald. Lilac pink with rose pink buds. Showy. 12 in.

Snowsprite. Lovely low bush. Semi-double white blossoms.

Victor. Very dwarf. Blossoms clear pale lavender blue. 6 in.

Collection. A collection of ten of these fine dwarf hybrids. \$2.00.

Linarifolius. Very fine blue. 10 in.

Pleiades Yvette Richardson. Airy bush with masses of lavender blue flowers. 8 in.

Ptarmicoides. White flowers in flat corymbs. Very neat and dwarf. Long season bloomer.

Subcoeruleus. Large lilac blue flowers. Dwarf.

ASTILBE Simplicifolia. Neat glossy leaves and fluffy spires of pinkish blossoms. Choice. 6 in. 50c.

Sinensis Pumila. A fine dwarf with six inch pink plumes. 50c.

AUBRETIA. Neat tufts of gray green foliage smothered with flowers in early spring.

Hybrids. Fine large flowered forms from named varieties.

Leichtlinii. Rosy carmine. Compact habit. 35c.

Monarch Strain. New brilliant colored hybrids. Extra choice.

Mrs. Lloyd Edwards. Crimson purple. Beautiful.

Variegata. Variegated yellow and green foliage with purple blue flowers. Rare. 50c.

AURICULA Alpina. Handsome primrose-like plants with smooth powdered foliage and velvety flowers. Many rich colors. Half shade.

BRODIAEA. Easy bulbous western native plants producing big heads of showy flowers.

Hendersonii. Starry pale yellow flowers with blue lines. 20c.

Ixiodes. Bright yellow with darker bands. 20c.

Lactea. White with green mid vein. 20c.

BROOMS

Because there is a certain amount of confusion in their botanic classification, we have decided to list all *Cytisus* and *Genista* species under the main heading of brooms. These dwarf brooms, none of which grows over two feet tall, make ideal rockery shrubs and are admirably suited to hot and sunny situations.

***Cytisus Ardionii*.** A low growing treasure with flowers of brilliant yellow. 6-9 in. 75c-\$1.00.

***Cytisus Beanii*.** A neat shrub covered with golden flowers. 12-18 in. \$1.50.

***Cytisus Dallimorei*.** Compact shrub with yellow blossoms marked with deep red. 20 in. 50c-\$1.00.

***Cytisus Hirsutus Decumbens*.** Very prostrate with trailing stems and masses of bright yellow flowers. Very choice. 35-50c.

***Cytisus Kewensis*.** A showy and beautiful broom of spreading habit covered with creamy white flowers in May. Rare. 8-12 in. 50c-\$1.00.

***Cytisus Purpureus*.** Slender weeping branches and rosy lavender flowers. Graceful and lovely. 50c-\$1.00.

***Genista Dalmatica*.** Tiny bushlet with finely cut foliage smothered with bright yellow flowers in May. 75c.

***Genista Hispanica*.** Dense spiny rounded bushes. Foliage hidden by the bright yellow flowers in May. 1 ft. 50-75c.

***Genista Horrida*.** Choice and spiny. Forming silvery tuffets with yellow flowers. Rare. 4 in. \$1.00-\$1.50.

***Genista Pilosa*.** Dainty foliage. An attractive trailing species with yellow flowers. 50-75c.

***Genista Radiata*.** Dainty silvery spidery bushes. Yellow blooms. May-July. 12 in. 50-75c.

***Genista Sagittalis*.** Deep green cactoid foliage with abundant spikes of golden flowers. Trailing. 8-12 in. 25-50c.

***Genista Tinctoria flore-plena*.** Valuable prostrate form with double yellow flowers. 25-50c.

BRUCKENTHALIA Spiculifolia. Small heath-like plant with pink flowers in June. 6-8 in. 50-75c.

BUPHTHALMUM Salicifolium. Large orange gold daisies.

CALANDRINIA Umbellata. Satiny Lewisia-like flowers of dark crimson. Rich and showy for a dry sunny place.

CALCEOLARIA Polyrhiza. Dainty lemon yellow slipper-shaped flowers. Moist soil. 4 in. 50c.

CALLIRHOE Involucrata. Trailing. Finely divided foliage. Showy crimson flowers all summer and autumn. Full sun.

CALLUNA. See Heather.

CALMINTHA Alpina. Mats of aromatic foliage. Soft lavender blooms.

- CALTHA Palustris.** Var. *Monstrosa*. Marsh Marigold. Shiny rounded leaves and large golden flowers on 18-24 in. stems. Fine pool or bog plant. 50c.
- CAMASSIA Esculenta.** Bulbous western native. Fine tall spikes of deep blue star-shaped flowers. 1-2 ft. 10c.
- CAMPANULA.** A large family of varied forms, containing much desirable rock garden material, especially valuable on account of its long season of bloom. Gritty soil in part shade.
- Abietina.** Fine violet vase-shaped flowers. 9 in. May-November.
- Allionii.** A marvellous high alpine for the moraine or gritty soil. Very large purple bells. 2-3 in. Rare. 75c.
- Barbata.** Bearded Bell of the Alps. Pale china blue flowers.
- Cochlearifolia.** (*Pusilla*) Dainty nodding lavender blue bells produced in great profusion over dense mats of attractive foliage. 2-3 in.
- Cochlearifolia Alba.** White form of the above.
- Cochlearifolia Miranda.** Larger silver blue bells on 4 in. stems. Late. 35c.
- Collina.** Satiny deep purple bells. 9 in. 35c.
- Fenestrellata.** A form of *Garganica* with smooth foliage and soft blue star-like flowers. 35c.
- Garganica.** Compact rosettes of handsome foliage literally covered with bright blue stars.
- Glomerata Acaulis.** Cluster heads of deep violet flowers. Very dwarf.
- Isophylla.** Lovely for walls and large stones in the rockery. White flowers one inch across in great profusion. 35c.
- Isophylla Mayi.** A lavender blue form of *Isophylla* with downy foliage. 50c.
- Lasiocarpa.** Pleasing neat rosettes of shiny toothed leaves. The handsome powder blue bells are borne erect on 3-5 in. stems. June-September. 50c.
- Muralis.** (*Portenschlagiana*). Attractive mats of deep green foliage with many starry violet bells. June-November. 4 in.
- Persicifolia Moerheimii.** Fine waxy double white flowers. 30 in.
- Persicifolia Pfitzeri.** Fine large double blue. 30 in.
- Poscharskyana.** A fine new trailing campanula with quantities of soft blue flowers from May to October.
- Pseudo-Raineri.** Charming little plant with very large purple flowers. Compact and free flowering. One of the best. 35c.
- Pulla.** Broad masses of bright green foliage with shining purple blue bells. 2-3 in. 50c.
- Pulloides.** A magnificent version of *Pulla* with larger flowers. 50c.
- Raddeana.** Glossy scalloped leaves and deep purple bells. 9 in.
- Rotundifolia Purple Gem.** Glorious shade of deep purple. More floriferous than the type. 8 in. 50c.
- Rotundifolia Robinsoni.** Large violet bells freely produced on 6-9 in. stems.

Sarmatica. Many spikes of pale blue bells. 35c.

Stansfieldii. Soft hairy leaves and short, branched stems ending in pendant bells of soft warm violet. 4 in. 50-75c.

Tommasiniana. A beautiful late blooming species with many tiny pale purple bells on slender wiry stems. A real treasure. 6 in. 75c.

CARLINA Acaulis. Spiny rosettes of silvery foliage with large sessile straw colored flowers.

CASSIOPE. See Heather, page 19.

CATANANCHE Coerulea. Lavender blue flowers on wiry stems. 18 in.

CENTAURIUM (Erythrea) Diffusa. Pink Gentian. A neat, brilliant, free flowering little plant bearing a profusion of waxy rose-pink flowers in late summer. 35c.

CERASTOSTIGMA Plumbaginoides. (Plumbago Larpentae). Dwarf spreading habit; bronze foliage, deep blue flowers in fall. Desirable. 6-8 in.

CHELANDRUM Zawadski. Rosettes of shiny leaves and white silene-like flowers. 6 in.

CHELIDONIUM Majus. Single-flowered yellow celandine.

CHICORIA Species. Double pink. Choice double flowers of soft clear pink. Long season bloomer. Fine for border or large rockery. 3 ft.

CHIOGENES Hispidula. Creeping Snowberry. Trailing evergreen with showy white berries. 35c.

CHIONODOXA. Very desirable bulbs blooming at the same time as the crocuses, producing dwarf spikes of starry flowers.

Lucillae. Sky blue flowers with white centers. 50c per doz.

Sardensis. A rich blue self. Earlier than the above. 50c per doz.

CHRYSANTHEMUM. Dwarf hardy chrysanthemums.

Hispanicum. Finely cut silver leaves and large golden flowers. 6 in. 35c.

Mawii. Charming pink marguerite with dainty silver foliage. 1 ft.

Tchihatchewii. (Turking Daisy). Dense ferny ground cover for dry exposures. White flowers on 4 in. stems.

CISTUS Villosus. Beautiful shrub with bright rosy flowers. 12-18 in. 35c.

CLEMATIS. Davidiana. Erect habit. Small sweet scented blue flowers in clusters. 2 ft. 35c.

Integrifolia. Large deep blue flowers with white centers on flopping two foot stems. 50c.

Tangutica. Climbing species with dainty golden globe-shaped flowers, followed by attractive silvery seed heads. 8 ft. 50c.

CODONOPSIS Ovata. Trailing plants with soft hairy leaves and light blue bells beautifully patterned within with orange and purple. 35c.

COLCHICUM. Autumn Crocus or Meadow Saffron. The flowers which resemble large crocuses, appear without foliage after the first fall rains. They are free flowering, and bloom for a long period. The glossy green foliage, much like that of a tulip, appears in spring.

Autumnale Album. Pure white. 25c each.

Autumnale Minor. Lovely orchid lavender. 25c each.

Bornmuelleri. The grandest of all Colchicums. Blooms earlier and with much larger flowers of tender lilac rose. 75c each.

Parkinsonii. Narrow wavy leaves. Checkered blossoms of deep lilac rose and white. 25c each.

Speciosum. Rosy mauve. 25c each.

CONVOLVULUS. Perennial Morning Glory. Persistent summer bloomer. These forms do not spread.

Cantabricus. Gray foliage and fine pink blooms all summer and fall. 50c.

Mauritanicus. More trailing than the former with lush foliage and lavender blue flowers. Persistent and profuse bloomer.

COPTIS Trifolia. Gold Thread. Good ground cover for shade with finely cut deep green foliage.

CORYDALIS. Fine ferny foliage. Constant bloomers. Suitable for walls. Good in half shade.

Bulbosa. A bulbous form with dainty orchid flowers in early spring. Plant in late summer. 50c.

Cheilanthesfolia. Foliage turns bronzy in fall. Long spikes of yellow flowers. 35c.

Lutea. Lemon yellow flowers. Easy and good.

COTONAESTER Humifusa. Slender creeping stems; leaves one inch long, solitary white flowers followed by bright red berries. 25-50c.

COTULA Squalida. A good bulb cover with fine ferny foliage.

CROCUS. Autumn flowering. These are true crocuses which bloom in the fall. Although not so large as the colchicums, they have a delicate beauty all their own. They bloom after the foliage is gone.

Speciosus. Very blue lavender with prominent orange stigmata. Exquisite. 5c each.

Zonatus. Soft rosy lavender with yellow center and orange zone. Ethereal and lovely. 5c each.

CRYPTOMERIA Japonica Nana. Compact light green globular dwarf evergreen shrub. Will not exceed 18 in. 25-50c.

CYCLAMEN. Hardy variety. Handsomely marbled leaves. Flowers varying from white to pink. Autumn blooming. Very choice. 50-75c.

CYNOGLOSSUM Grande. Western native. Large hairy leaves and spikes of large blue forget-me-nots. 12-15 in.

CYPREPIDIUM. The grandest of the hardy orchids. Suited to a moist shady corner. Plant shallow.

Fasciculatum. A rare species from southern Oregon with spikes of small dainty pink and brown flowers. 60c.

Montanum. Oregon native with white and brown flowers on 12 in. stems. 50c.

Pubescens. Yellow Lady Slipper. The dainty deep yellow slippers are borne several on a stem. 50c.

Spectable. Showy Lady Slipper. Huge blossoms of rosy purple with white segments. 50c.

CYTISUS. See Brooms.

DABOECEA. See Heather.

DALIBARDA Repens. Dainty creeper with geum-like leaves and single white flowers. Requires shade. 35c.

DAPHNE. Early blooming shrubs with very fragrant flowers.

Blagayana. A noble creeping species with evergreen foliage and very early flowers of sulphur yellow. Choice and rare. Stock limited. \$3.00.

Cneorum. Fine evergreen shrub for the rockery with heads of fragrant pink flowers. 8-12 in. 50c-\$1.50.

Mezereum. Deciduous shrub fragrant lilac purple blossoms, appearing before the foliage. February-April. Small plants. 25-50c.

DELPHINIUM Tatsiense. Choice and new. Brilliant peacock blue flowers produced over a long period. 14 in. 35c.

DIANTHUS. Pinks are among the finest rock garden subjects. They are of easy culture in sunny, poor soil. Our collection contains most of the desirable rock garden species.

Alpinus. Very dwarf with large deep rose colored flowers. 35c.

Arvenensis. Very neat and attractive. Pink flowers. 3 in.

Caesius. Blue gray foliage. Rosy fringed flowers. 6 in.

Caesius lcombe. A particularly fine form of Caesius.

Carthusianorum. A fine cluster head with starry flowers varying from rosy magenta to crimson.

Cruentus. Blood red cluster head, with grassy foliage.

Deltoides. Free flowering rose from June to August. 4 in.

Deltoides alba. Fine white form of the above.

Gelidus. Dwarf with large rose pink flowers. 50c.

Highland Queen. A great favorite. Single rose colored blossoms with dark eye. Fragrant. 9-12 in.

Laciniatus albus. Fringed white. Sweet scented and dainty.

Neglectus. A very beautiful sort. Grassy tufts of foliage with brilliant blossoms of cherry rose with buff reverse. 35c.

Peresteri. A tiny development of Deltoides with short stemmed pink flowers on compact mounds of foliage. 35c.

Rosii. Similar to Neglectus, but larger. 4-6 in. 35c.

Seguieri. Rosy purple flowers. Very late bloomer. 12 in.

Sundermanni. Large waxy white flowers with a distinct jasmine odor. New and rare. 4-6 in. 35c.

Sylvestris. Dense grassy tufts from which spray arching stems carrying big clear pink flowers. 35c.

Sylvestris Frigidus. Similar to the above, but more dwarf. 35c.

Winteri. Large single flowers in various colors. 35c.

DICENTRA. Bleeding Heart. Finely cut foliage and flowers in racemes.
Cucullaria. Dutchman's Breeches. Dwarf, with glaucous leaves and white flowers. Shade.

Eximia. Rose pink flowers over a long period.

Oregana. (Glauc). Attractive silvery foliage and creamy white flowers.
Choice Oregon native. 10 in. 35-50c.

Oregana Pink. A fine pink flowered form of Oregana. 35c.

DIERAMA Pulcherrimum. Australian Wand Flower. Stiff iris-like leaves and thin wiry arching stems bearing a shower of elegant bell-shaped flowers. Pink and red shades. Rare and lovely. 5 ft. 35c.

DIGITALIS. Fox Glove.

Dubia. Gray wooly leaves and soft pink bells. Distinct and lovely. 18 in. 50c.

Lutz Hybrids. Soft salmon pink flowers with darker spots.

DODECATHEON. Shooting stars. Bird's bills.

Campestris. Narrow leaves and pinkish flowers.

Conjungens. Rosettes of narrow leaves and pale pink flowers. Very early bloomer. 6-9 in.

Dentatum. Toothed leaves and white blossoms. 4 in.

Hendersonii. Rosettes of thickened leaves and showy heads of purple flowers. 8-10 in.

Jeffreyi. Taller and later with paler flowers.

DOUGLASIA. Laevigata. A charming high alpine from the coast range in Oregon. Inch high cushions of foliage studded with glowing flowers of rosy pink. Prefers part shade. 50c.

Vitaliana. Gray green rosettes with citron yellow flowers.

DRABA Olympica. Mossy mats of foliage with golden flowers.

DRYAS. Octapetala. Makes flat evergreen carpets of little oak leaves with dainty waxy white flowers followed by silvery seed whorls. Good. 50c.

Sundermanni. A hybrid of the above with larger flowers. 35c.

EDELWEISS. See Leontopodium.

EDRIANTHUS. Dalmatica. Basal rosettes of shiny leaves and starry blue flowers. 3 in.

EPIGAEA Repens. Trailing Arbutus. Creeping evergreen with delicate pink-tinted flowers. Exquisite fragrance. Shade and acid soil. 50-75c.

EPIMEDIUM. Attractive evergreen plants with shiny bronzy leaves and dainty flowers in loose spikes. Blooms early. Prefers part shade.

Lilacinum. (Violaceum). Dainty lavender flowers. 50c.

Macranthum Roseum. Rosy pink flowers.

Niveum. Lovely white flowers. 50c.

Sulphureum. Pale yellow flowers. 50c.

ERANTHIS Hyemalis. Winter Aconite. One of the first spring blooming bulbs. Bright yellow flowers resembling buttercups, rising from an encircling collar of fringy green. 50c per doz.

ERICA. See Heathers, page 19.

ERIGERON. Similar to aster in appearance, habits and needs.

Mucronatus. A trailing species bearing pretty pink and white daisies from June till autumn.

Uniflorus. Tiny high alpine. Attractive pink daisies springing from dark green rosettes of leaves. 3 in. 35c.

Wallowa Mt. Species. Oregon native. Soft lavender daisies very freely produced 5 in.

ERINACEA Pungens. Blue broom. A spiny bushlet with clear, lavender blue pea-shaped blossoms in early spring. Extremely rare. \$1.50.

ERINUS Alpinus. Hybrids. Charming wall or crevice plant with white to rose colored blooms.

ERIOPHYLLUM Caespitosum. Oregon Sunshine. Bright yellow daisies with fine cut hoary foliage. 12 in.

ERODIUM. Fine rock garden subjects similar to hardy geraniums.

Chamaedryoides Roseum. Mats of scalloped foliage with rosy flowers. Persistent bloomer.

Cheilanthesfolium. Lacy gray foliage and large blush white flowers with deeper veins. 75c.

Chrysanthum. Lovely gray foliage and sulphur yellow blossoms. Distinctive and rare. 75c.

Corsicum. Tufts of crinkly velvety foliage with rosy pink flowers. 50c.

Macrodenum. Soft green ferny foliage and a succession of delicately veined pink flowers marked with two dark blotches, all summer. 4 in. 35c.

Manescavi. Ferny foliage and rosy magenta flowers. 10 in.

ERYTHREA.—See Centaurium.

ERYTHRONIUM. Dog-tooth Violet. Should be planted in fall. Light shade.

Giganteum. Large cream colored flowers. 10c.

Grandiflorum. Bright yellow with plain green leaves. Earliest to bloom. 10c.

Hendersonii. Lovely soft lavender with mottled leaves. 10c.

Johnsonii. Rose pink flowers and mottled foliage. Very fine. 10c.

Parviflorum. Bright yellow flowers on 10 in. stems. 10c.

Rose Beauty. Large deep rose pink flowers. 10c.

EUONYMUS Kewensis. Dwarf trailing evergreen with red berries. 50c.

EUPHORBIA. For hot sunny places.

Myrsinites. Prostrate evergreen with blue green foliage and yellow flowers in early spring. 35c.

Polychroma. A neat symmetrical plant with glaucous foliage and showy heads of yellow bracts. 12 in. 50c.

FERNS

We have an unusually complete collection of ferns, some of which are suited to rockery conditions, while others are adapted to the shade garden. These ferns are all hardy, and will prove a welcome addition to the garden.

ADIANTUM Pedatum. Maidenhair. Delicate light green finely-cut foliage. Very airy. Shade. 12-15 in.

ATHYRIUM Filixfamina. (Cyclorosum) Lady fern. Fine, wide large lacy fronds. Shade and moisture. 2 ft.

ASPLENIUM Platyneuron. Narrow black stemmed fronds. 5-10 in. 35c.

Trichomanes. Delicate fronds, much like maidenhair. Dry conditions in shade. 3-4 in.

BOTRYCHIUM Silaifolium. Grape fern. Fine cut dark green leaves of leathery texture. 12-14 in. 50c.

Virginianum. Large species with lovely broad leaved foliage. 50c.

CHEILANTHES. Densa. (Pellaea Densa). Finely cut wide green fronds. Sun or shade.

Gracillima. Lace fern. Very lacy and delicate. Rock crevices in very well drained soil. 4 in. 50c.

Lanosa. Fine lacy fern with silvery reverse. 6-8 in. 35c.

Tomentosa. Somewhat similar to Lanosa, but less compact. 35c.

CRYPTOGRAMMA Acrostichoides. Parsely fern. A lovely feathery fern. Good for hot dry rocks. 5 in.

CYSTOPTERIS Bulbifera. Bulblet fern. 5 in. Dainty.

DENNSTEDTIA Punctilobula. Hay scented fern. Dense mats of fragrant fronds. 1 ft.

DRYOPTERIS Arguta. Finely cut, wide evergreen fronds. 14 in. 35c.

Clintoniana. Clinton's woodfern. Fine evergreen fern. Shade. 3 ft. 35c.

Cristata. Crested woodfern. Beautiful dark green fronds. 2-3 ft. 35c.

Nevadensis. Fragrant fern. Light green finely cut fronds. 8-14 in. 35c.

Noveboracensis. New York fern. Pale green leaves tapering both ways from the middle. 1-2 ft. 35c.

Spinulosa. Shield fern. Large wide lacy fronds. 2 ft.

Spinulosa Var. Dilatata. Leaves more nearly triangular than the type. 2 ft.

ONOCLEA Sensibilis. Large broad triangular leaves. Very hardy and easy.

OSMUNDA Cinnamomea. Cinnamon fern. Showy large fern with 2-4 ft. fronds. Young growth covered with rusty wool. Very attractive. 35-50c.

Claytoniana. Interrupted fern. Similar to the above, but young growth covered with white wool. Imposing. 35-50c.

Regalis. Royal fern. Handsome wide branching fronds of pale green. A very beautiful fern. 3 ft. 35-50c.

PELLAEA Andromedaefolia. Coffee fern. Airy and graceful, with rounded pinnae and wiry stems. 12 in. 50c.

Atropurpurea. Attractive gray green fronds and black stems. Stands sun and drought well. 8 in. 50c.

Brachypteris. Finely cut blue green fronds. Fine and new. Sunny rocks. 4 in. 50c.

Orthinopus. Bird's foot fern. A lovely airy fern with dainty pinnae arranged in groups of three like miniature bird tracks. 50c.

PITYROGRAMMA Triangularis. Gold Back fern. Dry conditions in light shade.

POLYPODIUM Vulgare. Western licorice fern.

POLYSTICHUM Acrostichoides. Christmas fern. Evergreen dagger-like fronds. 12-18 in.

Andersoni. Rare species with lacy fronds, similar to Brauni. 18-24 in. \$1.00.

Brauni. Graceful lacy fronds and stems covered with brown scales. 18-24 in. 75c.

Lemmoni. Rare and beautiful species with stiffly erect compact fronds. 6-8 in. 75c.

Lonchitis. Holly fern. Long stiff narrow fronds with prickly edges. 15 in. 50c.

Munitum. Western sword fern. Large clumps of evergreen fronds. 18-36 in.

Plumosum Compactum. A very beautiful fern with lacy, plume-like fronds of pale green. Attractive in the garden or as a house plant. Probably tender in the east. 50c.

Viviparum. Similar to the above, but with longer, less lacy fronds. 25-50c.

SCOLOPENDRIUM Vulgare. Eastern Hart's Tongue. Broad leathery entire leaves. Rare and choice. 50-75c.

Vulgare Crested. Lovely waved and crested form of the preceding. 50-75c.

STRUTHIOPTERIS Nodulosa. Ostrich Plume fern. Large fronds growing in a circle from the crown. Showy and easy. 4 ft. 35-50c.

Spicant. Deer fern. Oregon native. Heavy leathery evergreen fronds with rounded pinnae. 35-50c.

WOODSIA Cathcartina. Low growing with narrow, finely divided fronds. Rare. 50c.

Ilvensis. Rusty woodsia. Stems covered with brown wool. Dwarf.

Oregana. Lacy, narrow light green fronds.

Scopulina. Dwarf and dainty. 50c.

WOODWARDIA Radicans. Great chain fern. To 4 ft. 50-75c-\$1.00.

FESTUCA Glauca. Dwarf blue gray tufted grass.

FRAGENOPHERA Fosteri. Small tufted plant with white daisy-like flowers. 3 in.

FRITILLARIA. Native bulbous plants with drooping bell shaped flowers. Fall delivery.

Lanceolata. Brown and green speckled flowers. 12-14 in. 15c.

Pudica. Fine butter yellow flowers. 6 in. 15c.

GALANTHUS. Snowdrop.

Elwesii. Giant Snowdrop. Dainty white drooping flowers, blooming very early. Largest of all snowdrops. 65c per doz.

Nivalis. Similar to the above, but smaller. 60c per doz.

Nivalis flore-plena. Double snowdrop. Similar to the preceding, but with double flowers. 75c per doz.

GALAX Aphylla. Attractive shiny rounded leaves, bronzy in tone and leathery in texture. Shade. 50c.

GAULTHERIA Procumbens. Wintergreen. Evergreen carpenter with attractive glossy foliage and white flowers followed by red berries. 35-50c.

GENISTA. See Brooms, page 8.

GENTIANA. These plants provide some of the most gorgeous blues of the garden.

Acaulis. Gentianella. One of the most beautiful alpines, the incomparable big blue trumpet gentian. Rich shining blue. Blooms spring and fall. 3 in. 35-50-75c.

Acaulis Clusii. Longer stemmed than the above. Blooms darker. 35-50-75c.

Asclepiadea. Willow gentian. Fine arching stems with lovely deep blue trumpets borne in great profusion. A very lovely late bloomer of easiest culture in part shade. 50-75c.

Calycosa. Choice Oregon native. Fine large blue flowers. 75c-\$1.00

Cruciata. Deep blue flowers in clusters. Easy and vigorous. Late. 35c.

Excisa. A larger, finer acaulis with taller stems. 50c.

Farreri. Lovely sky blue trumpets surrounded by grassy foliage. Semi-prostrate. August till frost. 50c-\$1.00.

Macaulayi-Well's Variety. Hybrid of Farreri and Sino-Ornata. Midway between the two in color. Strong compact growth. Easy. 75c-\$1.00.

Menziesii. A dwarf Oregon native with clusters of small deep blue semi-open flowers. 35-50c.

Newberryi. Rare Oregon native of compact growth. Fine blue flowers. White inside with greenish spots. \$1.50.

Oregana. Broad funnel shaped flowers. 12-18. 75c.

Orfordi. A very dwarf form from the Oregon coast with trailing stems. 50c.

Parryi. Showy deep blue trumpets two to five on a stem. 12 in. 75c.

Pneumonanth. Narrow leaves and slender stems. Many rich sapphire trumpets all along the stem. Handsome. Rare and new. 6-9 in. 75c.

Purdomii. Very choice with flowers of deep cobalt blue. 50c.

Sceptrum. An Oregon native with deep blue semi-open flowers. 2 ft. 35c.

Septemfida. The most dependable sort. Beautiful blue fringed bells in fine clusters. July-Sept. 12 in. 50c.

Sino-Ornata. Finest of autumn flowering gentians. Fine dark blue trumpets from Oct. to Dec. 4 in. 35-50c.

Verna. Lovely spring gentian. Numerous sky blue stars with white centers. 1 in. \$1.50.

GERANIUM. These hardy geraniums bloom through a long season and are of easiest culture in a sunny location.

Armenum. Dark red flowers. Robust habit. 12-18 in. 35c.

Cinereum. Grayish foliage and large pink flowers. Dwarf. 50c.

Endressii. Clear rose colored blossoms continuously produced. 9-12 in. 35c.

Farreri. A very choice geranium with lovely light pink flowers with black stamens. Very rare. \$1.00.

Grandiflorum. Large ultramarine flowers. 14 in. 35c.

Ibericum. Fine violet blue flowers. The foliage assumes rich autumnal tints. 16 in. 35c.

Pylzowianum. Attractive cut leaves on frail stems and flights of large pink blossoms. 3 in. 50c.

Sanguineum Lancastriense. Fine prostrate foliage and lovely soft pink flowers. 35c.

Subcaulesens. Dwarf tufted plant with glowing carmine flowers. Silvery gray foliage. Handsome. New. 3-5 in. 75c.

Traversii. Most attractive plant with shimmering silver gray foliage and rose pink flowers. 6-9 in. 50c.

GEUM. Interesting both for flowers and foliage. Easy.

Borisii. Large vivid orange flowers. One of the finest. May-Oct. 35c.

Heldreichii. Lovely gray foliage and bright orange red blooms. 50c.

Hybrid Bronze. Fascinating large flowers of a fine bronze shade. 8-10 in. 35c.

Lady Stratheden. Large double golden yellow. 18-24 in.

Montanum. One of the most desirable species. Neat shiny foliage and large golden flowers. Shade. 3-6 in. 50c.

Mrs. Bradshaw. Double scarlet. Showy. 24 in.

Rivale. Leonard's Variety. Nodding coppery pink blossoms. 8 in.

GLOBULARIA. Evergreen metallic foliage and blue flowers in heads.

Bellidifolia. Intermediate in size between nana and cordifolia. Good. 2 in. 35c.

Cordifolia. Bluish glossy foliage. 3 in. 35c.

Nana. Tiny prostrate shrub covered in early June with fluffy blue balls. 35-50c.

GORMANIA Laxa. Sedum-like rosettes and pink flowers.

GYPHOPHILA. Baby Breath. Attractive low, much branched plants with clouds of tiny flowers.

Repens. Blue gray mats covered in May and June with countless lovely white stars.

Repens Rosea. Dainty rose form of the above.

Repens Bodgersi. New dwarf with semi-double flowers. 12 in. 50c.

HABENARIA Fimbriata. A lovely terrestrial orchid. A 14 inch spike studded with dainty fringed blossoms of exquisite lavender pink. Shade. Very rare. 50c.

HABERLEA Ferdinandi-Coburgi. Rosettes of thick leathery deep green leaves and lilac lavender gloxinia-like flowers. For a cool north exposure. Very choice. 75c-\$1.00.

HEATHER

The dwarf heathers which are such good shrubs for the rockery, are listed under so many different scientific names, that it is difficult for the ordinary gardener to keep track of them all; therefore we have sought to simplify matters by listing them all under one heading. There are no finer rock garden shrubs than the heathers; their foliage is always neat and the different blooming season of the various sorts makes it possible to have one or another of them in bloom at almost any time of year.

CALLUNA Vulgaris Alba. Var. Hammondii. Dense spikes of purest white flowers. Dark compact foliage. Late summer bloomer. Fall delivery only. 8-10 in. 50-75c.

Vugaris Aurea. Carpets of rich golden bronze foliage in winter. 25-50c.

Vulgaris Lavender. Scotch Heather. 9 in. 35c.

Vulgaris Pygmea. A gem for the rockery. Very compact mossy foliage. Purple flowers. 4-6 in. 25-50c.

Vulgaris Rubra. Red Heather. Beautiful plant completely covered with brilliant red flowers in mid-summer. Very fine. 18 in. 75c.

CASSIOPE Mertensiana. An alpine gem with slender branches clothed with scale-like foliage. Numerous white nodding bells. Slow growing. Enjoys shade. 12 in. 75c-\$1.00. Fall delivery.

DABOECIA Polifolia. (Irish Bell Heather). Symmetrical little bush covered with large pink vase-shaped blooms from mid-summer till autumn. 25-50c.

Polifolia Alba. A fine white form of the above. 25-50c.

ERICA Carne Rosea. Charming with pink flowers from November to March. Very free flowering. Especially good for winter color. 35-50-75c.

Carnea Alba. Fine white form of the above. 50c.

- Carnea Coccinea.** Handsome deep rose colored form of Carnea. 35-50c.
- Ciliaris.** Fine summer bloomer with spikes of rosy purplish flowers. June-Sept. 18 in. 50c.
- Cinerea.** (Scotch Heath). Reddish purple blossoms in summer. 8-12 in. 35-50c.
- Mediterranea Hybrida Dawn.** Semi-prostrate with soft hairy leaves. New growth brilliantly colored. Large, rich, deep pink bells. 35-50c.
- Tetralix.** Produces large soft pink bells in pretty terminal clusters for many weeks. June-Oct. 50c.
- Vagans Lyonesse.** Pure white bells with chocolate colored anthers. Fall delivery only. 75c.
- Vagans Mrs. D. F. Maxwell.** Very fine free flowering. Deep pink blossoms June to Oct. \$1.00.
- Vagans St. Keverne.** Bright clear pink flowers. July-Oct. 50-75c.

PHYLLODOCE Empetriformis. Stocky branches clothed in brilliant green foliage. Bright pink flowers. Slow growing. 12 in. 75c.

HEDERA Conglomerata. An attractive slow growing ivy with close set leaves. 35c.

HELENIUM. Showy late summer bloomers with daisy-like flowers.

Bigelovii. Southern Oregon native. Rich golden 2-3 in. flowers with brown centers. 18-24 in. May-July. 25c.

Hoopesii. Pure orange flowers. 3 inches across. 18-24 in.

HELIANTHEMUM. Rock Rose. Showy small evergreen for walls and banks with shiny foliage and single rose flowers. Full sun.

Mutabile. Apricot. Large apricot flowers and glossy foliage.

Boule de Feu. Double flowering deep red.

Burnt Orange. Pumpkin colored flowers.

Double Orange.

Double Yellow.

Lemon Queen. Single bright yellow.

Rhodanthe Carneum. Silvery foliage and rosy pink flowers.

Single Pink.

Single White.

Tuberaria. Mats of corrugated broad glossy leaves and spikes of yellow blossoms.

HELLEBORUS. Hardy herbaceous plants with attractive palmately divided foliage. Very early blooming.

Corsicus. The beauty of this plant lies in its prickly evergreen foliage which is unimpaired by frost. Flowers are pale yellowish green in fine clusters. Very rare. \$1.00.

Niger. Christmas Rose. Blooms throughout early winter. White, anemone-like flowers tinted with apple blossom pink. Our strain is unusually free flowering. Very rare. \$1.00.

- Niger Altifolius.** A taller, whiter Niger of more robust habit. Very fine. Rare. \$1.00-\$1.50.
- Orientalis.** Similar to Niger, but varying from pink to purple and chocolate brown. Later and taller. 50-75c.
- Viridus.** Magnificent frost resistant dark green foliage and pale green flowers. Feb. 75c.
- HELONIAS Bullata.** Terrestrial orchid with flat rosettes of evergreen shiny leaves and spires of starry pink flowers. Moist situation. 50c.
- HEMEROCALLIS.** Day Lily.
- Hybrids.** A wide variety of fine shades and colors grown from seed of named varieties.
- Minor.** Golden yellow flowers. July and Aug. 15 in.
- HEPATICA Triloba.** One of the earliest spring bloomers. Small anemone-like flowers in white, pink and lavender.
- HEUCHERA Coral Bell.**
- Alba.** Dainty white bells.
- Cascade.** A new large flowered shell pink. 35c.
- Hybrids.** Lovely colors from cream to deep red.
- Pluie de Feu.** Very fiery red. 35c.
- HOUSTONIA Coerulea. Bluet.** A dainty creeper sprinkled over with large blue stars. Shade.
- HUTCHINSIA Alpina.** A true alpine with mossy green foliage covered with dainty white flowers in spring. 35c.
- HYPERICUM.** St. John's Wort.
- Androsaemum.** Hardy shrub with small yellow flowers followed by red and black fruits. 18 in.
- Coris.** A choice shrublet with clouds of sparkling golden flowers. Very choice and rare. 35c.
- Olympicum.** Blue gray foliage. Large yellow flowers.
- Orientalis.** Green foliage. Soft yellow flowers. 8 in.
- Reptans.** Marvellous little mat-forming beauty. Lovely soft golden blooms. Buds red on the outside. 1-2 in. 35c.
- Rhodopeum.** Distinct species with soft silver gray foliage and fine golden flowers. Attractive throughout the year. 8 in.
- IBERIS Correaefolia.** Glossy dark green leaves and masses of white flowers in May. 8 in. 35c.
- Saxatilis.** A lovely prostrate candytuft with fleshy leaves and white blooms. Persistent bloomer. Choice and rare. 2 in. 50c.
- INCARVILLEA Brevipes.** Hardy Gloxinia. Attractive pinnate foliage and rich rosy trumpets. 6-12 in. 50c.
- Delavayi.** Similar to the above, but slightly taller. 25-50c.
- INULA Ensifolia.** Narrow leaved tufts of foliage. Numerous golden daisies on 6-9 in. stems.
- IRIS.** See Iris Species, page 36.

JASIONE Perennis. Tufts of foliage. Globular heads of powder blue flowers.

JUNIPERUS Communis depressa aurea. Golden trailing juniper. Fine golden foliage. Small plants. 25-50c.

KALMIA Polifolia. Dense narrow evergreen leaves. Fine heads of small pink bell-shaped flowers, in spring. Acid soil and partial shade. 12 in. 75c-\$1.00.

KALMIOPSIS Leachiana. A native evergreen shrublet with small dark green leaves and pink kalmia-like blossoms. One of the very choicest shrubs for the rockery. New and very rare. Fall delivery. 8 in. \$1.00.

KNIPHOFIA. Dwarf red hot poker. Late blooming.

Rufa. Primrose yellow tinged with red. 18 in.

Tuckii. Yellow tinged bright red. 18 in.

LAVANDULA. Dwarf lavender.

Atropurpurea Nana. Silvery gray foliage and intensely purple flowers. 10 in. 35-50c.

Grenoble. Fine, distinct wide leaved French form. 35c.

Munstead. Compact habit. Blue flowers. 12 in.

Pedemontana. Aromatic lavender with deep purple blooms.

LEONTOPODIUM Alpinum. Edelweiss. A well known alpine with wooly flowers. 25-50c.

LEUCOCRINUM Montanum. The lovely native Star Lily. Narrow foliage and clusters of almost stemless fragrant white flowers. Sharp drainage.

LEWISIA. Oregon natives requiring sun and sharp drainage.

Brachycallx. Fine ample rosettes bearing a profusion of 2 inch stemless white flowers sometimes pink tinted. 50c.

Columbiana. Rosettes of thick leaves. Clusters of pale pink flowers. 35c.

Columbiana Rosea. Shinier leaves. Deep rose flowers over a long period. Good. 50c.

Hecknerii. Spiny edged leaves with pink or white flowers. New and rare. 50c.

Howellii. Lovely crimped grayish green foliage with radiating heads of soft apricot flowers. 35c.

Oppositifolia. Very lovely with white blossoms faintly tinged pink. Deciduous species.

Rediviva. Satiny pink flowers before the leaves. Deciduous.

LINDELOFIA Spectabilis. Anchusa-like plant with deep blue flowers.

LINUM. Perennial flax. Long season bloomer. Very graceful.

Alpinum. Prostrate with clear blue flowers. 4 in.

Flavum. Very fine yellow. 10 in.

Hirsutum. Graceful plant with silvery foliage and silvery blue flowers. 18 in. 75c.

Narbonnense. Best of the blue flowered flaxes. 18 in. 30c.

- Perenne.** Intense sky blue flowers. 18-24 in.
- Salsoloides Nanum.** Mats of fir-like foliage almost smothered with hundreds of lucent white flowers. Rare and choice. 2 in. 75c.
- Viscosum.** Rare species with oval leaves and large soft lilac rose flowers. 12 in. 50c.
- LITHOSPERMUM Prostratum.** Heavenly Blue. A fine prostrate evergreen shrub with glorious azure flowers. 35-50c.
- LOISELEURIA Procumbens.** (Azalea procumbens). Delightful minute shrub with fine pink flowers. Rare and choice. 1-2 in. \$1.00.
- LOTUS Corniculatus flore plena.** Baby's slippers. A hardy trailer for dry banks and rockwork. Blooms all summer and autumn. Fine bulb cover with showy double yellow flowers.
- LUTKEA Pectinata.** Prostrate mossy trailing foliage. Light yellow flowers. Resembles a mossy saxifrage. Oregon native. 35c.
- LYCHNIS. Alpina.** Neat tufts with heads of rose colored stars.
- Viscaria Splendens.** Spikes of brilliant carmine flowers. 12 in.
- Viscaria Splendens flore plena.** Double form of the above. Good.
- MENTHA Requieni.** Dense green, mint scented carpenter.
- MERTENSIA Pulchella.** A very lovely native blue bell with exquisite clusters of drooping flowers. 6-8 in. 35c.
- MICROMERIA.** Aromatic bushlings with dainty flowers.
- Juliana.** Wiry stems and tiny pinkish flowers. 6 in.
- Libanotica.** Silvery gray with lavender pink flowers. 8 in.
- Piperella.** Trim little bush with lavender pink flowers and glaucous foliage. 50c.
- MITCHELLA Repens.** Partridge berry. Neat evergreen creeper with white flowers followed by attractive red berries. 35c.
- MONTBRETIA Rosea.** A salmon rose color form.
- MUHLENBECKIA Rivularis.** Mats of dainty bronzed foliage on wiry stems and tiny creamy pink blossoms in autumn. 35c.
- MUSCARI.** Grape hyacinths.
- Armenaicum.** Early giant. Many spikes of deep cobalt flowers. 75c per doz.
- Plumosum.** Feather hyacinth. Lovely and curious flowers with feathery spikes of lovely lilac flowers. 9 in. \$1.50 per doz.
- NARCISSUS.** The narcissus listed below are all dwarf forms suitable for the rock garden.
- Bulbocodium.** Hoop petticoat daffodils.
- Citrinus,** Sulphur yellow. 6-8 in.
- Clusii.** White. 4-6 in. 30c.
- Conspicuous.** Deep yellow. 6-8 in. 20c.
- Canaliculatus.** Bunch flowered like the Chinese lily, with yellow cup and cream colored perianth. Fragrant. 6-8 in. 20c.

- February Gold.** Perianth golden yellow, trumpet fringed orange. Early.
- Queen of Spain.** Soft, delicate light yellow with a graceful reflexing perianth. 12 in.
- Minor.** A charming miniature Golden Spur daffodil. 50c.
- Moschatus.** A cream white daffodil with drooping perianth. 10 in.
- NEPETA.** Showy flowered mints for border or rockery.
- Mussini.** Silvery foliage and clouds of lavender flowers all summer.
- Nuda.** A bluer, more upright mussini.
- NIEREMBERGIA Rivularis.** Inch-high dark green leaves and large pearly white cup-shaped flowers in great profusion. 35c.
- OENOTHERA.** Evening primrose.
- Missouriensis.** A fine trailer with large soft yellow flowers all summer. 6-9 in.
- Pusilla.** Small glossy tufts. Tiny yellow blooms. 4 in.
- Taraxacifolia.** Distinct dandelion-like rosettes and many large sessile flowers which open white, but change to rose. Good.
- OMPHALODES Cappadocia.** Neat oval pointed leaves with loose sprays of deep rich blue forget-me-nots. 50c.
- ONOSMA.** Rough hairy foliage with sprays of dainty drooping bells.
- Tauricum.** Lovely Gold Drop. Soft yellow bells. Very fragrant. Choice long season bloomer. 35c.
- Stellulatum.** Similar to Tauricum, but paler. 35c.
- ORIGANUM.** Marjoram. Aromatic bushlings with dainty clusters of bloom.
- Pulchellum.** Grayish foliage and rose colored flowers
- Virens.** Paler than the above.
- OROBUS Vernus.** A dainty small bush with an abundance of blue and violet pea-shaped flowers.
- OXALIS Adenophylla.** Tufts of crinkly gray green leaves and fine lilac pink flowers. 50c.
- PAEONIA Brownii.** Much divided bluish green leaves with single red and yellow flowers. 50c.
- Tenuifolia flore plena.** A lovely species with delicate finely cut foliage and deep velvety red double flowers with prominent golden stamens. A rare plant. Stock limited. Fine clumps. \$2.00.
- PAPAVER.** Hardy poppies.
- Oriente flore plena.** Double red Oriental poppy.
- Oriente Sass Pink.** Soft flesh pink. New. 50c.
- Rupifragnum.** Silvery foliage and salmon orange flowers. 12 in. 35c.
- PARONYCHIA Dichotoma.** Attractive creeping plant similar to phlox with showy yellow flowers in late summer.
- PENSTEMON.** Fine American natives with showy snap-dragon like flowers.

Barrettiae. Choice Oregon native with silvered foliage and spikes of rosy lavender flowers. 10 in. 35c.

Cardwellii. A native evergreen species with showy red violet flowers produced in profusion several times a year. 10 in. 35c.

Corymbosus. A fine shrubby species with bright red flowers. 18 in. 50c.

Davidsoni. Tiny compact prostrate evergreen shrub with large brilliant purplish blossoms. 23 in. 35c.

Diffusus. A tall leafy species with blue to purple flowers. 18 in.

Jeffryanus. A very fine species with silvery foliage and rich deep blue flowers. 35c.

Menziesii. Native evergreen creeper with large purple flowers. 5 in. 35c.

Oregana. A woody shrub with narrow gray leaves and soft blue flowers with pink buds. 6 in.

Procerus Minor. A low growing evergreen with blue flowers. 4 in. 35c.

Richardsonii. Toothed leaves and pink flowers. 16 in.

Rupicola. Gray green foliage. Cherry red blooms. Choice. 35c.

PERAMIUM Decipiens (Goodyeara Menziesii). Rattlesnake Plantain. Deep green foliage strikingly netted and veined with white. Shade.

PETROCALLIS Pyrenaica. Minute tufts of draba-like foliage with fragrant soft lilac flowers in spring. New. 75c.

PHLOX. Choice American natives with starry flowers.

Adsurgens. Choice Oregon native. Fine green foliage and beautiful large clear pink flowers. Creeping habit. A real gem. Half shade. 35-50c.

Amoena. Dwarf with bright pink flowers. Good. 4 in.

Diffusa. Oregon native. Neat habit of growth with fine lavender flowers. 2 in. 50c.

Douglasii. Dense tufted plant with spiny leaves. Pink to lavender. 3 in. 50c.

Nivalis Hybrids. Similar to subulata, but blooming later.

Col. Moore. Pure white. 50c.

Mary Alice. Light pink with red eye. 35c.

Sir Guilford. Coarser foliage and large deep pink flowers. 35c.

Ovata. Broad foliage and brilliant pink flowers. 6-10 in.

Rigida. Cushions of mossy foliage and large white flowers. Choice. 75c.

Subulata. Prickly evergreen foliage with sheets of bright flowers.

Alba. Fine white blossoms.

Apple Blossom. White, tinted pink. 35c.

Atropurpurea. Dark foliage and deep red blooms. Choice and new.

Blue Hills. Compact. Flowers blue tinged with lavender. 35c.

Brittoni. White star-like flowers and fine foliage. Distinct and lovely. 35c.

Camla. (Camlaensis). The very best with immense salmon pink flowers freely produced over a long period. Rare. 50-75c.

Fairy. Pale lilac with purple eye. Very dainty.

G. F. Wilson. Fine lavender flowers.

Maischnee. Fine white flowers. New. 35c.

Moerheimii. Carmine pink flowers. Compact.

Rosea. Rosy pink flowers.

Schnee Witchen. Mounds of neat foliage covered with white flowers in early spring. New. 35c.

Sprite. Unusually large pink flowers with red eyes. Very good.

Vivid. Brilliant rose pink. Compact. One of the best. 35c.

PHYLLODOCE Empetriformis. See Heather.

PHYTEUMA. Attractive campanuloid plants with dense green rosettes and heads of violet blue flowers.

Hemisphericum. Neat grassy foliage and round heads of clear blue flowers. 30 in. 50c.

Orbiculare. Handsome foliage and graceful balls of blue flowers. 12 in. 50c.

Scheuchzeri. Deep violet blue flowers. Easy. 10 in. 50c.

PLATYCODON Mariesii. Handsome deep blue bells. Late summer. 8-10 in.

PLUMBAGO Larpentae. See *Cerastostigma*.

PODOPHYLLUM Peltatum. May apple. Waxy, sweet scented white flowers nearly hidden by large handsome scalloped leaves. Shade.

POLEMONIUM. Ferny leaved plants with sprays of fine flowers.

Carneum. Oregon native with flesh pink flowers. Fine. Part shade.

Humile. Finely cut glaucous foliage and pale blue flowers. 6 in. 35c.

POTENTILLA. Effective rock plants with leaves and flowers somewhat resembling those of strawberries.

Cinerea. A dainty creeper with lovely yellow flowers. 2 in.

Flabellifolia. Shiny leaves and bright butter yellow flowers. 8 in.

Fragiformis. Silvery velvet leaves. Large golden flowers. 3 in.

Leander. Attractive compact foliage and large deep rose colored flowers. Highly recommended. New. 4-6 in. 35c.

Miss Wilmott. A lovely plant with cherry red flowers. Long blooming season. 12 in.

Nana Multiflora semi-plena. Dwarf variety with fine double flowers.

Nepalensis. Cherry rose flowers. 14 in. 35c.

Nevadensis. Pretty evergreen tufts with small but brilliant yellow flowers. 3 in. 35c.

Nitida. Tuffets of silvery gray foliage with pink flowers. Choice. 50c.

Ox-blood Red. Silvery foliage and large ox-blood red flowers. 12 in.

Pinnatifida. Ferny foliage and yellow flowers. 4 in.

Rupestris Pygmaea. A tiny white flowered form of rare charm. 2-4 in. 35c.

Tonguei. Very beautiful apricot blossoms with crimson centers. Dwarf and very choice. 35c.

Warrensii. Large bright yellow flowers. Profuse bloomer. 16 in.

PRIMULA. Primrose.

Acaulis. Bright flowers borne singly. Mixed. Early.

Acaulis Blue. Mixed shades only. 35c.

Acaulis double lavender. Fine delicate lavender flowers. 35c.

Acaulis double white. Beautiful white form of the above. 35c.

Clusiana. A rare and lovely alpine with fine rosettes of glossy pointed leaves and clusters of beautiful large flowers of glowing carmine with a white eye. 3-4 in. 75c.

Juliae. Dwarf mats of glossy foliage and starry claret flowers with golden eyes. 35c.

Acaulis-polyanthus hybrids of *Juliae*. 35c.

Gloria. Magenta crimson with golden eye. 50c.

Helenae. Very dwarf Burgundy red. Very free flowering. 50c.

Helene Purpurkissens. A dainty sort with deep purple flowers. Very choice. 50c.

Jewell. Intense magenta. 75c.

Juliana. A beautiful light violet. 50c.

Pam. Deep maroon. Neat and dwarf. 50c.

Primrose Lodge. A polyanthus hybrid. Deep crimson flowers in clusters. 35c.

Purple Splendor. Gorgeous royal purple with large flowers. 50c.

Wanda. A fine deep violet. Especially good. 50c.

Officinalis. Cowslip. Mixed colors. Fragrant.

Polyanthus. Fine umbels of blossom on tall stems.

Mixed colors. A wide range of lovely colors.

Hose-in-hose. Soft yellow only. 35c.

Rosea Grandiflora. Very early bloomer whose deep pink flowers appear before the foliage. Likes moisture and shade. 50c.

Spectabilis. Rosettes of shiny leaves and heads of rosy flowers with white eyes. 75c-\$1.00.

PUSCHKINIA Libanotica. Scilla-like flowers. White petals striped with blue. Bulbous. 10c each.

PYRETHRUM. Painted Daisies.

Grandiflorum. Double and single flowers. Pink to dark rose.

Langport Scarlet. A particularly fine deep red.

RAMONDIA Pyrenaica. Dark green crinkly foliage. Large soft lilac blue flowers with golden eyes. Rare and beautiful. 75c-\$1.00.

RANUNCULUS. Buttercup.

Glaberrimus. Very finely cut foliage and large brilliant yellow flowers on 3 in. stems. Early blooming.

Gramineus. Glaucous tufts of grass-like leaves. Lovely deep yellow flowers. 6-8 in. 35c.

RETINOSPORA Squarrosa Nana. Dwarf evergreen with soft heavy compact foliage. 2 ft. Small plants 25-50c.

RHODODENDRON SPECIES. These are all small, slow growing species suitable for the rock garden.

Hirsutum. Compact growth, hairy leaves. Flowers pink to carmine. \$1.00.

Impeditum. A fine dwarf lavender blue. \$1.00.

Intricatum. Another choice blue. \$1.00.

Keiskei. A dwarf growing Japanese species. Flowers pale yellow. 2 year old plants. \$1.00.

Myrtifolium. Pink flowers. 2 year old plants. \$1.50.

Oleafolium. A delightful small shrub producing pink flowers when quite young. 2 year old plants \$1.00.

Racemosum. (Mucronulatum). A new rhododendron with rose like flowers. Very early. 2 year old plants 75c-\$1.00.

Racemosum (Virgatum Series). A beautiful species with small pink flowers in profusion. 75c-\$1.00.

ROMANZOFFIA Sitchensis. Tufts of dark scalloped leaves. Delicate sprays of starry white flowers. 4-5 in. 35c.

ROMNEYA Coulteri. Matilija Poppy. Silvery green leaves and large lovely single white flowers with golden centers. Late blooming. 4-5 ft. 35-50c.

ROSA. These are dwarf species suitable for the rockery.

Arvensis. An intensely prickly bushlet with large single creamy yellow flowers. 8 in. 75c.

Rouletti. The tiniest rose. Dainty foliage and double pink flowers. Nearly ever-blooming. 4-8 in. Choice. 35-50-75c.

Spithamea. Choice dwarf rose with attractive bright pink single flowers. 8 in. 50c.

ROSMARINUS Officinalis Prostratus. An interesting prostrate rosemary. Soft blue flowers. Aromatic. 3 in. 50c.

RUTA Patavina. Finely divided gray foliage and small yellow flowers. 10 in.

SAGINA Subulata. Fine mossy ground cover. Tiny white flowers.

Sublata Aurea. Golden form of the above.

SANGUINARIA Canadensis. Blood root. Blue gray scalloped leaves and waxy white flowers with golden stamens. Early. Shade.

SAPONARIA Ocymoides. Profuse blooming creeper. Pink flowers.

SATUREIA Montana. Attractive thyme-like plant with wiry stems and soft lilac flowers freely produced. Late. 8 in.

Pygmaea. Especially delightful small form of the above. 4-6 in.

SAXIFRAGA. Saxifrage. Especially fine rock garden plants.

ENCRUSTED SECTION. These plants form handsome rosettes of narrow, leathery leaves, which in most cases are encrusted with a limy deposit. They usually have white or pale yellow flowers. They offer no cultural difficulties and flower in May and June.

Aizoon Alba. Dense rosettes of foliage. White flowers. 6-8 in.

Baldensis. Tiniest of the aizoons. Very compact. White flowers. 50c.

Cochlearis. Humped domes of silvered rosettes bearing graceful red stemmed sprays of large white flowers. 4-6 in. 50c.

Lagaveana. Similar to *Baldensis*, but larger with creamy flowers. 4 in.

Rex. Handsome small rosettes with mahogany red flower stems and fine creamy white flowers. Choice. 35c.

Rosea. Rose colored form.

Gaudinii. Fine leathery rosettes and pink flowers spotted white. 35c.

Lingulata Lantosca. Fat little rosettes, heavily encrusted and graceful plumes of white flowers. 10 in. 50c.

Macnabiana. Highly colored in winter. Flowers white with pink spots. 8-10 in. 35c.

Paradoxa. Fine rosettes of long narrow foliage edged with conspicuous beading. 50-75c.

Pyramidalis. Broad rosettes. Large panicles of showy white flowers. 2 ft. 35-50c.

KABSCHIA SECTION. Very dwarf alpines of close tufted habit. Flowers usually white or yellow. Very early blooming.

Apiculata. Spiny green rosettes. Primrose yellow flowers. 35c.

Apiculata Alba. White form of the above.

Burseriana Magna. A most attractive plant blooming in earliest spring with large white blossoms on pink stems. 3 in. 50-75c.

Burseriana Sulphurea. Similar to the above, but with yellow flowers. 50-75c.

Elizabethae. Gray green foliage; abundant yellow blooms. 50c.

Faldonside. Gray green rosettes and large citron yellow flowers. Very fine. \$1.00.

Ferdinandi-Coburgi. Similar to *Elizabethae*. Deeper yellow flowers. 35c.

Godseffiana. Blue gray rosettes. Yellow flowers. 35c.

Grisebachii. Large silvery encrusted rosettes with handsome bracts of reddish blooms. Rare and fine. 75c-\$1.00.

Haagii. Dark spiny foliage and rich yellow blooms. Early. 35c.

Irvingii. Dense blue gray rosettes. Fine pink flowers. A real gem. 50-75c.

Obristii. Lovely blue gray tufts and fine large white flowers with red calyxes and stems. Very choice. 75c.

Paulinae. The finest yellow flowered *Kabschia*. Lovely gray green cushions and large pale yellow blossoms freely produced. Choice. 2 in. \$1.00.

Petraschii. Silvery cushions and fragrant white flowers. 50-75c.

Sancta. Neat green foliage with silver beading. Bright yellow flowers. 35c.

MISCELLANEOUS GROUP.

Cartilaginea. Stiff rosettes of leaves with pinkish flowers. 50c.

Decipiens Guilford's Hybrids. Lovely shades of white, pink or rose flowers. Forms a soft evergreen carpet.

Decipiens H. S. Stokes. Fine mossy variety with bright carmine flowers.

Peltata. Moisture loving with immense leaves on 2-3 ft. stems. Wide heads of fine pink flowers. 50c.

Umbrosa Primuloides. Dwarf London Pride. Compact and fine with pink flowers. 8 in. 35c.

Umbrosa Primuloides Elliott's variety. Very dwarf. Especially good pink flowers. 3-4 in. 50c.

SCABIOSA Graminifolia. Silvery leaves. Pale blue flowers. 35c.

SCILLA. Lovely spring-flowering bulbs with small hyacinth-like blooms.

Campanulata. Blue or white. 5c each.

Campanulata Rosea. A soft lilac rose form of *Campanulata*. 75c per doz.

Peruviana. Fine wide spikes of brilliant blue flowers. Very showy and fine. 25c each.

Siberica. Blue. Very early. Drooping bell-like flowers on 3-4 in. stems. Lovely for the rock garden. 75c per doz.

SCUTELLARIA Alpina. Spreading mats with lavender flowers.

Indica Japonica. Attractive velvety gray foliage and lavender blue flowers through late summer and fall. 35c.

SEDUM. Easy sun-loving plants with fleshy leaves. Good for walls and stepping stones.

Arboreum. A bushy sort with light pink flowers. 6-8 in.

Cape Blanco. A particularly choice form of *Spathulifolium* with tight gray rosettes and yellow flowers. Oregon native.

Dasyphyllum. Glaucous bead-like foliage. Pink flowers.

Ewersii. Gray blue shrubby foliage. Rose colored blossoms.

Kamschaticum. Trailing. Bright orange flowers.

Kamschaticum Variegatum. Variegated form of the above.

Middendorffianum. Low tufts of narrow reddish brown leaves. Yellow flowers. 4 in.

Obtusatum. Fat bronzy leaves. Golden flowers. Western native.

Oreganum. Fat paddle-shaped leaves turning bronzy in the fall. Oregon native.

Purdyii. Flat rosettes of leaves resembling *sempervivums*. Choice and different. 35c.

Sieboldii. Red edged glaucous leaves. Heads of pink flowers in September.

Spathulifolium. Glaucous foliage. Yellow flowers. Fine.

Stahlia. Dwarf yellow flowered sort. Foliage tinged red in mid-summer.

SEMPERVIVUM. Hen and Chickens. Succulent plants of easiest culture. Good in poor soil and sunny places. Color and texture of foliage differs widely in different species. The nomenclature of this class of

plants is much confused, and we cannot guarantee that all the plants listed below are true to name. However each plant offered is quite distinct from all the others.

- Acuminatum.** Large glaucous rosettes. 50c.
- Arachnoideum.** Tiny cobweb type. Ruby rose flowers.
- Arenarium.** Tiny gray green Rosettes. Cream colored flowers.
- Assimile.** Medium rosettes. Pale green tipped brown. Rose blooms.
- Atlanticum.** Pale green rosettes 2 to 3 inches in diameter. 35c.
- Atroviolaceum.** Fine large dark purple rosettes. Striking. 50c.
- Austraicum.** Small rosettes with bronzy tips.
- Braunii.** Open rosettes. Distinctly tipped brown. Yellow flowers.
- Calcareum.** Large glaucous blue green rosettes with purple tips. 35c.
- Cinerescens.** Grayish webbed rosettes. 35c.
- Doellianum.** Small slightly hairy green and brown rosettes. Red flowers. 35c.
- Dolomiticum.** Small green rosettes with purple tips. 35c.
- Fimbriatum.** Small gray downy rosettes.
- Funckii.** Emerald rosettes. Red purple flowers. Medium size.
- Glaucum.** Large glaucous rosettes with rose colored flowers.
- Globiferum.** Like arenarium, but larger. Yellow flowers.
- Havana.** Dense rosettes of dark green leaves with purple edges.
- Hirtum.** Wide open rosettes of emerald green leaves and clear yellow blossoms.
- Huteri.** Choice hybrid with tight rosettes.
- Kochli.** Deep bronze rosettes. Very vivid in winter.
- Laggeri.** Medium rosettes. Cobwebby. Rose flowers.
- Lown's No. 60.** Medium rosettes suffused red. One of the best.
- Mittenianum.** Medium gray green rosettes tipped red. Choice. 50c.
- Pallidum.** Large bright green rosettes tipped bronze.
- Pittoni.** Medium rosettes of hairy tongue-shaped leaves. Pale yellow flowers.
- Purdy 60-1.** Large reddish purple rosettes. Vividly colored in winter. 50c.
- Purdy 80-1.** Four inch rosettes. Deep green with dark red base and tips. Handsome. 50c.
- Reginae Amaliae.** Large rosettes of bronzy purple with yellow flowers. rare. 75c-\$1.00.
- Triste.** Sombre rosettes of brown tipped leaves.
- Violaceum.** Medium rosettes of glaucous green faintly tinted purple. 50c.
- Collection.** We have some very fine seedlings from rare species. We will send a collection of twelve unnamed sorts, all different for \$2.00.
- SHORTIA Galacifolia.** Tufts of green glossy leathery leaves with pale pink five-lobed bells in early spring. Fine winter color. 4 in. Choice. 35-50c.
- SILENE.** Charming plants allied to Dianthus.
 - Acaulis.** Moss-like tufted plant with sessile pink flowers. 2 in.

Acaulis Nordica. Deeper colored form of *acaulis*. 35c.

Acaulis Kodiak Variety. Alaskan species with slightly larger foliage than the type and very large flowers of a pleasing clear pink freely produced. New and rare. 2 in. 50c.

Maritima. Mats of glaucous foliage. Crinkly white flowers.

Saxifraga. Low mounds of foliage. White flowers all summer.

Schafta. Leafy tufts of foliage. Showy rosy purple flowers in autumn.

Shortii. Showy spikes of deep pink flowers. 14 in.

SISYRINCHIUM. Handsome irids with grassy leaves.

Grandiflorum. Grass Widow. Large satiny hanging bells of flashing imperial violet in earliest spring.

Iridifolium. Coarser foliage. Cream colored flowers in spikes.

SOLDANELLA. *Alpina*. Small leathery round leaves and lovely nodding fringed bells of orchid pink in earliest spring. Very choice and rare. 3-4 in. 50c.

SOLIDAGO *Cutleri*. Alpine Goldenrod. Bright plumes of golden flowers in July. 5 in. 50c.

Virga Aurea Nana. European dwarf goldenrod.

SPIRAEA *Decumbens*. A delightful bushling with wiry stems and clusters of white flowers throughout the summer. 6-8 in. Charming. New. 50c.

Filipendula flore-plena. Fern-like foliage in a neat flat rosette and 12-inch sprays of creamy white double flowers.

Hendersonii. Dense mats of silky rounded leaves with heads of cream white blossoms. Rare and choice. Western native shrub. \$1.00.

SPRAGUEA *Multiceps*. Pussy Paws. Flat rosettes of fleshy bronzy leaves and fluffy radiating heads of soft pink flowers. Moraine.

STACHYS *Corsica*. Fine carpeting plant with light green leaves and white lobelia like flowers.

STERNBERGIA *Lutea*. Lovely fall blooming crocus-like flowers of golden color and fine substance. Bulbous. Mid-summer delivery. 25c.

SYNTHYRIS. Oregon natives. Neat rosettes of leathery leaves and spikes of showy flowers in very early spring.

Pinnatifida. Fringed wooly gray leaves and dainty plumes of deep blue flowers. Rare and new. 75c.

Rotundifolia. Very dwarf. Soft lavender. Blooms most of the winter.

Stellata. Toothed kidney-shaped leaves. Spikes of blue flowers. 6 in.

Sweetzeri. Like the above, but larger with deep violet blue flowers.

TEUCRIUM. Thyme-like plants.

Campanulatum. Aromatic. Low growing, with finely cut gray foliage and white flowers.

Chamaedrys. Glossy evergreen foliage. Bright rose colored flowers in spikes. July-Sept. 12 in.

Marum. Very gray foliage and pink flowers. 8-9 in. 35c.

THYMUS. Thyme. Valuable aromatic subjects for carpeting hot dry spots, for bulb covers and for walls.

Alsinoides. Bushy, with round light green leaves.

Angustifolius. Tiny thick-set leaves. Purple cast in winter.

Aureus. Bushy type. Golden foliage.

Azoricus. Fine neat gray evergreen foliage and lilac flowers.

Balticum No. 2. Choice new creeper with hairy foliage.

Cimicinus. Trailing with tiny leaves. Purplish cast in winter.

Citriodorus. Lemon-scented thyme. 8-10 in.

Argenteus. Silver leaved lemon-scented thyme.

Aureus. Gold leaved lemon-scented thyme.

Croaticus. Low growing with dark green leaves. 3 in.

Erectus. Stiffly erect. Very effective. 8 in.

Ericaefolius. Heath-like rounded bushlets. Bronzy. Carmine flowers. 4 in.

Herba-Barona. Perfectly prostrate creeper. Anise odored.

Hirsutus. Small, round, fuzzy blue green leaves. Creeping habit.

Hymaelis.

Lanicaulis. Loose growing with gray alyssum-like leaves.

Marschallianus. Very fine with lovely pink flowers. 35c.

Micans. Tidy close clumps, starry and wiry in effect.

Nummularius. Sweet scented mat-forming species. Late blooming. Glossy foliage.

Russian Species. Long trailing stems. Thick round leaves. Gray.

Serpyllum. Creeping Thyme.

Albus. White flowered form with pale green leaves.

Annie Hall. Lovely pink flowers. Light green foliage. New. 35c.

Chamaedrys. A larger langinosus.

Coccineus. Darker foliage. Crimson flowers.

Coccineus Splendens. More brilliant than the above.

Lanuginosus. Woolly thyme. Gray velvet foliage. Lavender flowers.

Lanuginosus Hall's Variety. Much more profuse blooming type.

Minus. Neat and tidy. Ideal alpine lawn plant.

Roseus. Rosy pink flowers.

Vulgaris Fragrantissimus. Distinct variety with gray foliage. Very fragrant.

Zygis Gracilis. Ascending branches. Pure white flowers. 3-4 in.

TRADESCANTIA Brevicaulis. Clusters of deep rose pink flowers. Long season bloomer. 12 in.

TRILLIUM. Cernuum. Nodding white flowers with pink stamens.

Chloropetalum. Sessile Trillium. Very large flowers, white to dark red.

Erectum. Mahogany red flowers. 10 in.

Nivale. Very tiny plants with white flowers. Very early. 2 in.

Ovatum. Western Trillium. Large white flowers becoming pink with age.

Petiolatum. Narrow dark red flowers.

Rivale. Oregon native. White flowers slightly speckled with brown in the center. 3-4 in.

Stylosum. Lovely soft rosy flowers in April and May. 10 in.

Undulatum. Painted Trillium. Large wavy white flowers marked in the center with crimson.

TRITELEA Uniflora. Bulbous plants with narrow leaves and starry blue tinted white blossoms, over a long period.

TRITOMA. See Kniphofia.

TROLLIUS Europaeus. Luminous yellow globes. Shade and moisture. 35c.

TULIPA Kaufmanniana. Water Lily tulip. Flat creamy blossoms with golden centers and carmine reverse. 25c each.

TUNICA Saxifraga. Airy foliage and clouds of light pink blossoms all summer.

ULEX Nanus. Dwarf autumn flowering gorse. Yellow flowers. 2 ft. 50c.

VACCINIUM Kodiak Species. Delightful mat-like foliage turning bronzy in fall. Smooth waxy leaves. White lily of the valley flowers borne upright. New and rare. Stock limited. 75c.

VERONICA. A vast and variable family containing some of the best blues for the rockery.

Erica. Heath-like in appearance. Erect rosy spikes of flowers. 8 in.

Gentianoides. Mats of glossy gentian-like foliage with spires of soft blue flowers. 8-12 in.

Incana. Silvery foliage. Violet flowers. 8 in.

Multifida. Ferny leaves with spikes of blue flowers. 6-8 in.

Nummularia. Charming ground cover with smooth shiny roundish leaves and pale blue flowers. Quite distinct.

Pectinata Rosea. Velvety leaves and rosy flowers. Fine creeper.

Prostrata. Dwarf species with brilliant blue flowers.

Repens. Trailing species with pale blue blossoms.

Rupestris Rosea. Spikes of soft pink flowers. Good.

Saxatilis. One of the choicest. Shiny foliage and deep blue flowers. Prostrate habit.

Spicata. Violet blue flowers on 12 inch spikes.

Spicata Alba. Dwarf white form.

Teucrium Trehani. A dwarf bush hybrid with blue flowers and golden foliage.

VIBURNUM Opulus Nanum. A dwarf snowball, very compact. Lovely fall color. 1 ft. 50c.

VIOLA. Colorful subjects for sun or light shade.

Floriariensis. Blooms almost continuously. Lilac pansy-shaped flowers. 6 in.

Jersey Gem. Fine violet flowers all season. Popular.

Jersey Jewell. Larger than the preceding. Rich purple.

VIOLA SPECIES. Shade.

Adunca. Our most showy wild blue violet. Heart-shaped evergreen leaves and large flowers on 4 inch stems.

Arenaria Rosea. Tiny tufted violet with rose colored flowers.

Blanda. Tiny white flowers. Fragrant.

Beckwithii. Deciduous cut leaf type with two upper petals purple and lower ones pale violet. Oregon native.

Chrysantha. Deciduous native with finely cut foliage and large yellow flowers of fine substance with brown reverse.

Hallii. Oregon native. Wild Pansy. Finely cut foliage. Two upper petals dark violet; three lower ones yellow or cream. Good. 35c.

Nuttallii. Fine yellow flowers and hairy lanceolate leaves.

Odorata. Sweet violets.

Double Russian. Very fragrant deep violet double flowers.

Marie Louise. Pale lavender blue. Double. 35c.

Rosina. Deliciously fragrant violet with old rose flowers.

Swanley White. Choice double white. 35c.

Pedata. Bird's Foot violet. Eastern native. Cut leaf foliage. Large pale violet blossoms. Needs acid soil. Long season bloomer. 25c.

Pedata Bicolor. Exquisite form of the above with the two upper petals royal purple. A very beautiful flower. 35c.

Riviniana. Fine alpine violet with light blue flowers. Long season bloomer.

Trinervata. Bicolor deciduous native with finely cut gray green leaves.

WAHLENBERGIA Pumilio. Attractive dense silvery cushions of foliage with fine violet blue flowers. A rare treasure. 2 in. \$1.00.

XEROPHYLLUM Tenax. Squaw Grass. A striking mountain plant with clumps of tough grass-like foliage and tall fluffy spires of creamy white flowers. We advise spring planting. 75c-\$1.00.

ZAUSCHNERIA Californica. Trailing gray green foliage and many bright red fuchsia-like flowers in late summer. Drought resistant. 35c.

IRIS SECTION

Of all the many kinds of plants which grow, the iris species is the most versatile. There are tiny dwarf varieties, and stately tall kinds that grow more than four feet high. There are iris blossoms as dainty as orchids, tall flamboyant bearded irises and deep sombre varieties from the east. There are few weeks of the year in which some sort of iris does not bloom, and few situations in the garden where some variety will not thrive, from the bearded iris in the hot sunny border to the water iris in the pool. Irises vary in color: white, all shades of blue and purple, yellow, orange and bronze; in fact all colors but bright red.

We are glad to welcome visitors to our garden at any time, even in winter when the lovely iris *Stylosa* is in bloom. In March many of the bulbous irises flower, and early in April the dwarf bearded irises begin to bloom. From then until July the garden is full of color. We recommend a visit to our gardens during the blooming season, as we feel that better selections can be made if the plants are seen in bloom in the field. It is impossible to give an accurate description of the many delicate shades of color in the few words which are available to us in the catalogue.

A list of tall bearded irises will be sent to anyone who wishes to write for it.

BEARDLESS IRIS SPECIES

Acoroides. Similar to *Pseudacorus*, but more dwarf with larger ruffled flowers. Sulphur yellow. 2 ft. \$1.00.

Arenaria. See Palestine Iris.

Bloudowii. See Palestine Iris.

Bracteata. Wide scanty foliage, shiny on the upper surface. Large deep yellow flowers, veined purple brown. Choice Oregon native. 4-6 in. 50c.

Bulleyana. One of the Siberica group with blue purple falls and bluish purple standards on a light yellow ground. 15-18 in. 75c.

California Blend. A group of seedlings of California species covering a wide range in color and form. 35c.

Carolina. A rather small flowered blue species especially good for shade. 50c.

Chrysophylla. Lovely low growing species with white or soft yellow flowers veined purple. 35c.

Chrysographes. Blossoms deep rich velvety purple conspicuously veined with gold. Choice and rare. \$1.00.

Chrysofor. Hybrid *Chrysographes* and *Forrestii*. Like most hybrids, the color varies in different individuals. Attractive combinations of blue shades with yellow. 35c.

Cristata. A lovely little species which stars the ground with tiny wide open lavender flowers with darker markings on the falls. Fine for the rockery. 25c.

Cristata Alba. A rare white flowering form of *Cristata*. Singularly pure and lovely. 50-75c.

- Delavayi.** Siberica type. Beautifully veined and spotted blue on a white ground. Produces a fine effect. 32 in. 75c.
- Dichotoma.** Vesper Iris. Flowers in August, and continues for three or four weeks, although individual flowers last only a day. White to purple. 24-30 in. 35c.
- Dorothea K. Williamson.** Deep velvety purple flowers of unusual beauty and substance. 35c.
- Douglasiana.** Oregon native. Masses of evergreen foliage. Flowers two to a stem, freely produced. Varies from deepest purple through mauve and lavender to white. 12-18 in. 35c.
- Dwarf Purple.** Grows only 10 in. high. 35c.
- Tall Light Blue.** A late bloomer with showy ruffled pale blue flowers. 24-30 in. 35c.
- White.** A most unusual and beautiful pure white with yellow signal patch. Very large flower. Early. 16 in. 50c.
- Ensata.** Handsome little ageratum blue flowers. Free flowering. Early. 12 in. 50c.
- Foetidissima.** The seed pods remain on the plant in winter, bursting open and displaying rows of orange red seeds. Flowers inconspicuous, foliage evergreen. 18-24 in. 50c.
- Foliosa.** Deep velvety blue flowers and abundant foliage. 4-6 in. 25c.
- Forrestii.** Grassy foliage and lovely clear yellow blossoms. 15-18 in. 50c.
- Fulva.** Unique and striking terra-cotta red. Distinct. 18-24 in. 50c.
- Fulva Yellow.** Very rare exquisite yellow color form of Fulva. \$5.00.
- Fulvala.** Similar to D. K. Williamson, but more coppery in tone. 35c.
- Gracilipes.** Dainty small crested flowers of light pinkish mauve on slender stems. Crest bright orange. Part shade. 6-10 in. 25-50c.
- Gracilipes Alba.** Exquisite white form of this lovely Japanese species. New and rare. \$2.00.
- Gormanii.** Oregon native. Similar to Tenax, but with soft yellow flowers. Choice. 50c.
- Graminea.** Violet and blue flowers. Plum scented. 8 in. 50c.
- Guldenstadtiana.** Narrow petalled blue and yellow flowers. 18 in. 25c.
- Hookeri.** Similar to Setosa, but with larger flowers of deeper tone. 75c.
- Hyacinthiana.** Attractive flowers of soft blue and sulphur yellow with fine brown veins. Exceptionally fine. 50c.
- Innominata.** A rare new species from southern Oregon with slender grass-like leaves and showy ruffled flowers of good size.
- Orange.** Deep brilliant orange, very beautiful. 75c-\$1.00.
- Yellow.** Bright yellow, more or less heavily veined brown. 50c.
- Japonica.** Dainty, frilly orchid-like blossoms of soft lavender with orange crests, in airy sprays. Early. 25c.
- Koreana.** A dwarf Siberica type. Blue flowers. Summer delivery. 12 in. 50c.
- Lacustris.** Similar to Cristata, but with darker flowers.

- Laevigata Albo-Purpurea.** Good for water or ordinary garden conditions. The flat blossoms have a white ground, heavily flecked with blue purple. 14 in. 75c.
- Laevigata Semperflorens.** An iris for shallow water, bearing lovely flowers of uniform deep blue with a striking yellow blotch on the falls. Blooms constantly from mid-summer to November in our pool. A very fine addition to the water garden. 3 ft. \$1.00.
- Longipetala.** Robust and floriferous. Several flowers veined violet on a white ground, are borne on each stem. California. 50c.
- Milesii.** Similar to *Tectorum*, but taller. Airy lavender blossoms freely produced. 24-30 in. 50c.
- Minuta.** A tiny species of great rarity. The dainty flowers are a pleasing shade of light yellow neatly marked with brown, and are borne on very short stems. \$1.00-\$1.50.
- Missouriensis.** Slender foliage and attractive flowers with dark blue veining on a white ground. Rocky mountains. 35c.
- Prismatica.** Lilac purple blooms with a yellow throat and darker veins. very dainty and desirable. 16-18 in. 35c.
- Pseudacoris.** Deep yellow flowers with brown veins. Wet and sunny position. May be grown in water. 24-36 in. 35c.
- Purdyi.** Flower form similar to *Bracteata*, but foliage is narrower. Colors vary from white to lavender. 6-8 in. 50c.
- Ruthenica.** Dwarf with deep blue-purple flowers. Rare. Good. 35-50c.
- Setosa.** Broad foliage often stained purple at the base. Color varies from light purplish blue to deeper shades. Standards are reduced to mere points. 6-18 in. 50c.
- Sintensisii.** South Italian form. Slender species. Flowers heavily mottled and dotted with blue on a white ground. 8 in. 50c.
- Stylosa Speciosa.** (*Unguicularis*.) Winter blooming iris. For milder climates. The deep blue flowers are borne amid the grass-like foliage on perianth tubes about 8 inches long. 25c.
- Tectorum.** Japanese roof iris. Violet blue frilled petals. Very large crest. Interesting and lovely. 12-15 in. 50c.
- Tectorum Album.** A very lovely white form of *Tectorum* with a beautiful golden crest. \$1.00.
- Tectorum Lilacena.** A fine lilac form. 75c.
- Tenax.** Oregon iris. Fine large lavender blooms and grassy foliage. 10-12 in. 25c.
- Tenax Selected.** Lovely color forms varying from white through buff, salmon, apricot and pale yellow. These are personally collected forms which have been most carefully selected for their unusual coloring. After the 1937 blooming season we can supply in separate shades, until then only in a mixture. It is impossible adequately to describe the subtle shading and unusual color combinations of these irises. Mixed shades. 75c. Separate colors. \$1.00.
- Tenuis.** Flowers are white with a few purple veins and a patch of yellow on the center of the falls. Likes partial shade. Very rare. Oregon native. 6-10 in. 35c.

- Verna.** Lovely dwarf with bright blue flowers with a central orange ridge on the falls. Shade and acid soil. 35c.
- Versicolor.** Light purple blue flowers. Perfectly hardy and useful for landscaping. 18-36 in. 25c.
- Vinicolor.** A striking plant bearing fine wine colored blossoms. 2-3 ft. \$1.00.
- Wilsonii.** A rare species with yellow flowers somewhat veined with brown on the falls. 18-24 in. \$1.50.

BULBBOUS AND TUBEROUS ROOTED IRIS

These irises are very beautiful, and fairly easy of culture in a well drained situation.

- Bucharica.** Wide light green foliage. The plant bears several fine creamy yellow flowers at the top of each stem and one in each leaf axil. Floriferous and long blooming, beginning in February. 12 in. 75c.
- Persica.** A strikingly beautiful dwarf species with white flowers tinged with pale sea green. Blooms very early. 4 in. \$1.25.
- Reticulata.** A rare and beautiful iris with deep blue purple blossoms of velvety texture with a golden streak on the center of the falls. Good for the rockery. Blooms in February and March. 35c.
- Sindpers.** Large ruffled flowers of exquisite powder blue with golden markings on the falls. Blooms with Rectulata. Rare and new. \$1.00.
- Tuberosa.** A very odd, exceedingly fragrant variety with apple green flowers with a lip of velvety blackish purple. 12 in. 50c.

PALESTINE IRIS

These plants are very fine sorts belonging to the Oncocyclus and Regelia sections and their hybrids. All have large flowers of striking and unusual color combinations. They bloom with the Intermediate bearded irises. They should be planted where the roots can ripen and bake through the summer.

- Arenaria.** Very dwarf with lovely bright yellow flowers with an orange beard on 1 to 2 in. stems. Free flowering. April. 50c.
- Artemis.** Regelio-Cyclus hybrid. Very dark violet purple with deeper markings. Large and vigorous. \$1.50.
- Bloudowii.** Similar to arenaria, but taller and a little later. Buds, brownish black opening to brilliant flowers veined brown. 3-4 in. 50c.
- Carmello.** Pogo-Cyclus hybrid. Soft gray blue with deeper veins. 35c.
- Charon.** A handsome velvety flower of unique coloring. Beautiful bronze veined with deeper brown. 15 in. \$1.50.
- Freya.** Regelio-Cyclus hybrid. Violet purple on a white ground. \$1.50.
- Hebe.** Regelio-Cyclus hybrid. Heavily veined purple on a gray ground. Very handsome. \$1.50.
- Hermione.** A beautiful variety with large flowers deeply veined mulberry on a lighter ground with conspicuous dark beard. One of the finest Regelio-Cyclus hybrids. \$1.50.

- Hesperia.** Regelio-Cyclus hybrid. Large flowers. Pinkish fawn veined mahogany. \$1.50.
- Hoogiana.** Fine soft uniform blue, admirably set off by the golden beard. 18 in. 50c.
- Ib-Pall.** Pogo-Cyclus hybrid. Ruffled reddish violet flower. 35c.
- Luna.** Regelio-Cyclus hybrid. Large white flowers veined with lilac blue. Very handsome and striking. \$2.50.
- Nemesis.** Regelio-Cyclus hybrid. Gorgeous wine purple with rounded segments beautifully veined in a deeper tone. Conspicuous dark beard. \$1.00.
- Stolonifera.** Handsome species with flowers blended brown and purple shot with electric blue. 50c.
- Susiana.** Mourning Iris. One of the largest flowered irises. The large round standards are speckled and veined with purple black on a grayish ground which produces a sombre and beautiful effect. The falls appear somewhat darker than the standards. The whole flower is singularly beautiful. \$1.50.

JAPANESE IRIS

(Figures denote number of petals)

- Aspasia** (3) Amethyst with delicate blue lines radiating from the central yellow bar. Center darker. 50c.
- Ayasi** (3) Claret; pencilled white surrounding the gold bar; stamens white, tipped with lavender. 25c.
- Avigata.** (3) Dark plum and gray. Veined purple. 25c.
- Catherine Parry.** (6) Blue overlaid rosy red. Very double. 35c.
- Clarice Childs.** (3) Petunia violet; conspicuous yellow center surrounded with blue. Large. 35c.
- Cloud Dress.** (6) Gray ground with prominent purple lines radiating from the gold bar. 50c.
- Choisei-Den.** (6) Ruffled claret and white. 25c.
- Columbia.** (6) Blue with pure white veins. Striking. 50c.
- Date-Dogu.** (3) Rich claret red, orange blotches, surrounded by blue halo. 35c.
- Dominator.** (3) Rich indigo blue with narrow white stripes and light center. One of the finest. 35c.
- Eleanor Parry.** (6) Claret red flamed white and blue. 35c.
- Fascination.** (6) Blue lightly veined white with a pink tinge. 50c.
- Gekko-No-Nami.** (6) White with prominent yellow bar. 25c.
- Goko.** (3) Mottled blue. Very wide petals. 35c.
- Idzumi-Gawa.** (6) Gray radiating dark blue veins. 35c.
- Kyodosan.** (6) Very lovely orchid lavender pencilled white. Choice. 35c.
- LaFavorite.** (6) Large and fine white freely veined blue, with a rich purple center. 35c.
- Lavender Giant.** (3) Extremely fine large lavender blue. Free bloomer. 75c.

- Lucy Marshall. (6) Ruffled pansy violet with white zone and yellow signal. 35c.
- Marjorie Parry. (6) Delicate light mauve. Fine. 50c.
- Moonlight Waves. (6) Fine white with a rose halo. 75c.
- Olympia. (3) Large white flowers veined blue. Center petals delicate mauve and blue. 35c.
- Pyramid. (6) Violet purple veined white. 25c.
- Red Riding Hood. (3) A fine amaranth veined and suffused with white. 35c.
- Reine Des Bulgares. Deep blue shading with age to light blue. Veins white. Free flowering. 35c.
- Sano Natashi. (6) White. 25c.
- Shadow. (3) Reddish purple self. Large and fine. 35c.
- Tai-Hier-Ka. (6) A fine red. 25c.
- Tora-Odori. (3) Gray overlaid lavender blue. Very fine. 50c.
- T. S. Ware. (6) Reddish violet flowers veined white. 35c.
- Uchiu. (6) Coerulean blue veined white. Gold center. 25c.
- Yedo-Jiman. (3) Dark royal blue. White halo. 25c.
- Zama-No-Mori. (3) White shaded azure blue. Large and beautiful. 75c.

SIBERIAN IRIS

- Baxteri. S., deep violet purple; F., white, veined violet. 35c.
- Blue Charm. Delightful light blue with large standards and round horizontal falls. 35 in. 50c.
- Blue Owl. Blue violet with white center. Large. 35c.
- Blue Ridge. Silvery light blue with turquoise mid-rib. Late. 34 in. 50c.
- Blue Star. Fine contrast in light and dark blue. 30 in. 35c.
- Bob White. Milk white flowers with lemon throat. 50c.
- Butterfly. Light blue with white undertone. Profuse bloomer.
- Caesar. Beautiful dark velvety blue-purple with flaring falls. 75c.
- Caesar's Brother. Very fine black purple. Does not fade. \$2.00.
- Dragon Fly. Large soft violet blue.
- Dutchess of York. Large deep blue with broad circular falls.
- Emperor. Outstanding velvety purple. Fine form. 4 ft.
- Gray Prince. Lovely gray blue. 50c.
- Heavenly Blue. An exquisite rich blue. 48 in. 75c.
- Kingfisher. Showy rich violet. Falls have a white center. 52 in. 35c.
- Lady Northcliffe. Deep violet veined white. 38 in.
- Miss Duluth. Dark violet with velvety falls. New and fine. \$1.00.
- Morning Magic. Soft lavender suffused rose. Early and tall. \$1.50.
- Mrs. Perry. Silvery white flushed rose.
- Oldtown Seedling. Light blue with broad flaring standards. 35c.
- Papillion. Fine and tall with large bright blue flowers. 50 in. 35c.

- Peggy Perry. Ruffled velvety purple.
 Perry's Blue. Beautiful sky blue. Popular.
 Perry's Pigmy. Fine dwarf blue.
 Peter Pan. White, heavily veined blue.
 Red Emperor. Red-purple, veined blue.
 Red Raider. Red-toned purple. Large and dark. 32 in. 35c.
 Silver Tip. Clear dark blue with white stigmata. Ruffled. \$1.00.
 Skylark. Large and fine light blue. Falls edged white. 50c.
 Snowcrest. Fine clear sparkling white with slightly ruffled edges. 38 in. \$1.75.
 Snow Queen. Pure white with gold signal patch. 30 in.
 Sunnybrook. Exquisite shade of Alice blue. 30 in.
 Superba. Dark blue purple. 30 in.
 Thelma. Attractive light blue. Late.
 Turquoise Cup. An exquisite clear turquoise flower of finest poise and finish. A favorite. \$1.00.
 White Dove. Lovely white with golden throat and flaring falls. 50 in. 50c.
 White Empress. A very beautiful glistening white. Same shape as Emperor. 48 in. \$2.00.

TABLE IRIS

A new type of bearded iris with small flowers, wiry stems and slender foliage, suitable for table decorations.

- Bunting. A pale violet self of excellent form on well branched stems. 50c.
 Kinglet. Deep golden yellow self of attractive form. 35c.
 Peewee. Tiny pure white flowers on graceful well branched stems. 50c.
 Siskin. Fine clear yellow similar in form to Kinglet. 50c.
 Titmouse. Amber yellow speckled violet. 35c.
 Tom Tit. Mulberry purple with crisp flaring falls. 25c.
 Warbler. Free blooming light yellow. 35c.

AUTUMN FLOWERING AND INTERMEDIATE BEARDED IRIS

For a good many years the intermediate section of the bearded iris group was a somewhat neglected child, as breeders turned their attention to improvement among the dwarf and taller growing forms, but the last few years have seen the intermediate group come into its own again with the development of many fine new varieties of great beauty. These in-between irises, which are intermediate both in height and season of bloom, are quite prone to develop varieties which flower in the fall as well as in the spring.

- Alice Horsfall.** Large dark velvety red purple. A real beauty. 50c.
- Autumn Queen.** Clear pure white. Consistent fall bloomer.
- Balroudor.** Clear blue violet marked with deep olive buff.
- Britoness.** Large lovely primrose yellow flowers. 35c.
- Cosette.** A very fine white. Free flowering and of good substance and excellent form. 1936 introduction. \$2.50.
- Doxa.** Large flower of blended buff, white and blue.
- Elizabeth Huntington.** A crisp frosty blue Zua. 35c.
- Gentius.** A striking royal purple. Rich and velvety. Popular. 50c.
- Nymph.** Free blooming light clear yellow. Early. Good.
- Sound Money.** Fine yellow with golden sheen. Fall blooming. 10 in. 50c.
- Ultra.** Distinct ultramarine. Fall blooming.
- Zua.** Much crinkled frosty white flushed with blue.
- Zwannenburg.** Blend of old gold, fawn and white.
- The dwarf bearded irises **Fragrance**, **Jean Siret** and **Souv. de Lieut Chavanac** also bloom in the fall.

DWARF BEARDED IRIS

Pumila, Chamaeiris and Hybrids

(Abbreviations: S—Standards; F—Falls.)

We specialize in dwarf bearded irises and offer a very fine and complete collection. These low growing irises are remarkably free flowering, and are admirably suited to the rock garden as well as the iris border, where they may be used in front of the taller sorts to prolong the season of bloom, as they are the first of the bearded irises to flower.

- Alba.** Popular early white with a yellow beard. Very fragrant. 6 in.
- Alpin.** S., lobelia; F., reddish purple. 5 in.
- Aphylla Osiris.** Blue purple bicolor. 12 in.
- Aramis.** Light yellow. 6 in.
- Armee D'Orlent.** S., yellow; F., lightly washed violet. 35c.
- Atroviolacea.** Purple blue. Fragrant. First to bloom. 4 in.
- Baby Mine.** Yellow with long narrow falls. 4 in. 50c.
- Balceng Curiosity.** Yellow, purple and olive. Very fragrant. 8 in.
- Balkana.** Reddish purple. Pleasing form. 8 in.
- Betsy Presby.** A fine bright yellow with darker falls. 5 in. 35c.
- Blflora.** Purple violet. 6 in. 35c.
- Black Midget.** Buds soot black. Deep purple blooms. 6 in.

- Bluestone.** S., violet; F., purple. 6 in.
- Blue Jade.** Medium blue toned self.
- Blue Waif.** A fine blue.
- Bouquet.** White and heliotrope. 6 in.
- Brautjungfer.** St., lilac white; F., purple at base, yellow at tips. 6 in.
- Bride.** White, veined maroon. 8 in. 50c.
- Burgos.** Wine red with prominent orange beard. 6 in.
- Burgundy.** Deep claret purple. 10 in.
- Buzzer.** Light lavender blue with pink over tone. 9 in.
- Candida.** Fine white self. 6 in. 50c.
- Canari.** Light yellow. 9 in.
- Chamaeiris Campbelli.** Very lovely deep purple. 4 in. 50c.
- Citrea.** Lemon yellow. Extra early. 5 in.
- Coerulea.** A delicate soft blue. 4 in.
- Commandant Driant.** Violet tinted white. Orange beard. 6 in. 35c.
- Compacta.** Medium blue toned self.
- Comtesse D'Hauteville.** Smoky heliotrope suffused with red. 6 in. 35c.
- Die Fee.** Light blue bicolor. 35c.
- Dixmude.** Dark blue and reddish violet. 6 in.
- Dr. Mann.** Smoky lavender and claret. Beard bright yellow. 8 in.
- Dr. Potter.** Deep purple blue. 8 in.
- Elegance.** Pink tinted white. 5 in. 35c.
- Endymion.** Beautiful dark ruby self. 9 in.
- Erne.** Light blue toned self. 35c.
- Fragrance.** Medium blue. Fine bloomer over a long period. 35c.
- Glee.** A fine light yellow self. 50c.
- Golden.** Light yellow toned self.
- Gorgeous.** Purest white self. 35c.
- Harbor Lights.** Fine soft sulphur yellow. 6 in.
- Harmonia.** Yellow marked purple. 5 in.
- Hungarica.** Violet red purple. 10 in.
- Huron Imp.** Large dark blue flowers. 6 in. 35c.
- Jean Siret.** Blue bicolor tinted yellow. Fall blooming. 9 in. 50c.
- John Foster.** Pearl white. Late. 35c.
- Judy.** A dark ruby self. Very fine. 9 in.
- Laddie Boy.** Deep blue purple.

- Ladies of Peeling.** Exquisite pale blue. 9 in. 50c.
- La Tulipe.** Medium yellow with pointed segments. 50c.
- Lido.** Blue purple. White beard. 35c.
- Loomis B 1.** Large flowered deep blue. 50c.
- Lurida.** Deep rich mahogany red. Very late. 6 in.
- Lutea.** Deep yellow self. 6 in.
- Macrocarpa.** Rich violet tone. Very early. 5 in.
- Margaret.** Light sky blue. 6 in. 50c.
- Marocain.** Deep velvety purple. 5 in.
- Max.** A fine ruffled yellow. 6 in.
- Mellita.** Brown veined yellow flowers. Sickle-shaped leaves. Distinct and different. Balkan species. 4 in. 35c.
- Mignonette.** White tinted pinkish mauve.
- Mirelle.** Plum colored self. Beard yellow. 8 in.
- Miss H. M. White.** Pleasing blend of tan and lavender. 35c.
- Mistral.** Light blue bicolor. 8 in. 35c.
- Mongol.** Light yellow self. 8 in. 35c.
- Negus.** Intense purple self. Beard orange. 5 in.
- Neola.** S., violet; F., dark brown. 50c.
- Niobe.** Dark purple self with a white beard. 5 in.
- Nugget.** Pale yellow self. Beard deep yellow. 9 in. 35c.
- Orange Queen.** Deep yellow self. 8 in.
- Phoebus.** Medium yellow self.
- Pixie.** Late yellow dotted purple and brown. 50c.
- Prairie Gem.** Dark yellow. 6 in. 35c.
- Prince of Orange.** Dark yellow self. 6 in.
- Princess Louise.** Cambridge and china blue. 6 in. 35c.
- Pseudopumila.** Medium sulphur yellow. Late. 35c.
- Puck.** Pink to red toned blend. 50c.
- Reflection.** Medium blue. Standards edged yellow. 6 in.
- Reichenbachii Orange.** Deep yellow self. 6 in.
- Romeo.** Soft purple bicolor. 8 in. 35c.
- Rosalie.** Red purple bicolor. 8 in. 35c.
- Royal Purple.** Blue purple self. Beard white. 6 in.
- Sambo.** Medium blue purple. 6 in. 35c.
- Serpolette.** F., white; S., reddish white to cream.

- Seraphin.** White tinted pink. 6 in. 50c.
Silver Elf. S., pure white; F., gray lined light blue. 10 in. 50c.
Snow Cap. White self. 10 in.
Socrates. Claret red self. Very dwarf.
Sonny. Fine deep buttercup yellow self. 6 in. 35c.
Soliel De Levant. Fine dark yellow.
Souv. De Lieut. Chavanac. Red violet. Everblooming. 10 in. 50c.
Spring Skies. Fine light blue.
Srinagar. Deep violet purple.
Statellae. Fragrant ivory white. 10 in.
Standard. Blue purple bicolor.
Syra. A dark red purple self. 8 in. 35c.
Thisbe. Soft dainty blue.
Tony. Black purple with orange beard.
Trautleib. Very fine pink. 6 in. 50c.
Uranus. Dark purple self. 35c.
Urchin. Yellow. 6 in. 35c.
Verna. S., blue; F., plum. Beard yellow.
Wigan. Brownish red tone. Very pretty. 6 in. 35c.
Yellow Bird. Dark yellow self.
Ylo. A bright yellow self with flaring falls. 6 in. 35c.
Zobeida. Smoky lavender with a bloom on the petals. 6 in.
Zullichau. A dark blue bicolor. 8 in.
